

KEEP COOL --- DON'T GET EXCITED

This is municipal election time when people are liable to get all worked up and political enemies soon become bosom friends. Most of the trouble is over the desire of some one to rule or be the boss. Portsmouth is not going to the bow wows, no matter what happens to the aspirations of any one individual. Portsmouth does not care for either a Democratic or Republican boss. If you have anything to say you are welcome to use the Herald whether you are a Socialist, Democrat or a Republican.

PRICE TWO CENTS

GERMANY ORDERED TO SIGN PROTOCOL

ST. LOUIS IS WIDE OPEN TO THE THIRSTY

(By Associated Press)
St. Louis, Nov. 6.—Intoxigants were sold freely here today following the order of Federal Judge Paris yesterday temporarily restraining the District Attorney and the Collector of Internal Revenue from interfering with the sale of such beverages. Whiskey at wholesale brought from \$17.00 to \$23 a gallon according to the proof and saloons sold drinks at 20c to 50c each.

ASK FOR
SWAN-RUSSELL HATS
WORN BY WELL-DRESSED MEN

(By Associated Press)

Paris, Dec. 6.—In a note drafted by the Supreme Council today it is demanded that Germany sign the protocol providing for the carrying out of the peace terms falling within the Allies. It is set forth that the Allies have recourse to military measures. The utmost secrecy is being observed regarding the terms of the note which was unanimously adopted by the Council this morning but it can be said that it is worded so firmly that conference circles expect the discussion with Germany regarding putting the treaty into force will be finally closed.

CARRANZA TROOPS FIRE ON OBREGON CROWD

(By Associated Press)
Washington, Dec. 6.—Private advices

received here today from Mexico state Carranza troops at Pachuca fired on the followers of General Obregon while the general was making a public address in the interest of his candidacy for president. No details were given. Other advices state Eduardo Mestre, and Gilcino Navoa, attorneys for American consular agent Jenkins had refuted the charges that they and four other Mexicans were guilty of treason for defending Jenkins against charges brought by Governor Cabrera of Puebla. It was also said that President Carranza had called a conference of the state governors in Mexico for Dec. 29.

NOTICE

Portsmouth Electric Railway
In addition to the two car-weekend day service on Trolleys loop, the same two car service will be added on Sundays, commencing Nov. 30, from 8:05 a. m. to 1:35 p. m.

RAILROAD ADMINISTRATION MUST PAY

(By Associated Press)
Washington, Dec. 6.—The Illinois mines now in operation must close within a week unless the railroad administration pays for the coal it has confiscated or diverted said a statement today by the American Wholesale Coal Association.

The Association said the Railroad Administration had refused to pay for the coal until a price it considered fair had been fixed by Fuel Administrator Garfield and that Dr. Garfield had refused to change his price ruling. Mines which will be affected, the statement said, are producing now 5,100,000 tons of coal weekly, the sole supply for the nation in the present crisis. "If the mines are to continue to produce coal they must have money to meet their payrolls," said the statement.

ATTENTION!

Comrades of the United Spanish War Veterans Camp No. 4 are requested to be present at the 421st Memorial Service to be held in the Colonial Theatre, Sunday afternoon Dec. 7, at 3 o'clock.
By order
J. FODDEN, Commander.
H. W. FOSTER, Adjutant.

WILL PROSECUTE WESTERN OIL PRODUCERS

(By Associated Press)

Washington, Dec. 6.—Prosecution of western oil producers for alleged price-fixing was ordered today by Attorney General Palmer. On complaint filed by Senator Capper, of Kansas, federal agents were instructed to proceed at once against producers who had taken advantage of the fuel shortage in the west to increase the price of their product. Simultaneously the railroad established an embargo effective Monday against shipments of fuel oil from the east to points east of Chicago and St. Louis. This action, it was explained, was necessary to conserve the small supply of coal available for the territory west of the Mississippi river and to compel where possible the use of fuel oil instead.

Oil producers, Senator Capper said, have increased their prices from about \$1.00 a barrel before the strike to near \$4.50 a barrel. Declaring that scores of industrial plants in the west had converted their fuel equipment for oil consumption since the strike began

Senator Capper said the increase in oil prices placed a burden on them. Senator Capper also asked the Department of Justice to investigate complaints that the oil producers had got together on prices. He said the quotations made by the big concerns were practically an even team.

NO INCREASE IN COAL PRICE TO BE ALLOWED

(By Associated Press)

Washington, Dec. 6.—Not one cent can be added to the price of coal to finance any increase in the wages of miners, Fuel Administrator Garfield declared today after reading press dispatches that Governor Cox of Ohio had proposed that miners and operators in that state compromise on a

basis of a 25 percent advance in pay for the men. Dr. Garfield indicated that the government would interpose no objection if the increase could be given without advancing coal prices. "There will be no increase in the present price of coal as fixed in the Lever Act," Dr. Garfield said, "no matter what local arrangements and agreements are put into effect." He added that his position was absolutely unchanged from that on November 20th with the authorization of the Cabinet. Dr. Garfield explained that in suggestion the fourteen percent advance which the miners rejected, he was not fixing wage scales and had no authority to do so. He indicated that the increase suggested was merely that which the operators were able to grant without advancing the price of coal which the government has fixed.

Mrs. Henry W. Allen of Oshpec has been visiting her old home here for a few days. She is now a resident of Oshpec and is most desirably situated.

E. L. GUPTILL, Chairman

YORK

York Dec. 6.—A new pool table will be installed in Freeman's Hall next week. Also the old one will be recovered. The freemen have got some recreation room now with drapery curtains at the windows, some new pictures on the walls, and the piano refinished. Some class to these boys. This is a good thing, let's push it along. Help the boys all you can.

Mrs. P. L. Emerson, has gone to Portsmouth to spend the winter, and has closed up her house here.

Mrs. Martha Sewell is spending the winter with her sister Mrs. Allen C. Moulton at the corner.

The York Hospital has several patients at this time.

The high school junior class are planning on giving a moving picture show in the Town Hall Christmas night. The proceeds will go towards a trip to Washington for the class in the spring.

A play entitled "Too Many Millions" will be given in the Town Hall the 9th and 10th of January by the same class for that purpose. Everybody go and help the boys and girls to see the Capitol City.

Watch for the Freeman's entertainment some time in January. They intend to have some good talent from Boston and put on a real show, though said.

Some good meetings at the Methodist church for the next two weeks com-

mencing Sunday, Dec. 7.

Early Thursday morning somebody who had a liking for sweetmeats broke the large pane of glass in the Cox store windows and helped themselves to two boxes of nice candy. This being all that was gone leads the police to believe that it is the work of some boys. A sharp lookout is being kept on some suspicious characters.

The summer home of J. W. Allen at the Harbor was entered recently, but so far as can be learned nothing is missing.

Zeta weather is trying to put in appearance according to the glass Thursday morning when it got down as far as two above at some points in town.

A. E. Nowick who is spending some few weeks in Boston made us a visit today. He is at the home of Mrs. Nowick's relative in Boston and will return there Saturday.

Several of the members of the Epworth League of the M. E. church gathered at Kingsbury Hall Thursday evening and enjoyed one of the best social times they have had for quite a while. A business meeting was held after which refreshments were served consisting of nut sandwiches, nut cake, nut candy, and coffee. After the refreshments several games were enjoyed. All went home pronouncing it one of the best times they ever had at a League Social.

J. P. Holman has his garage newly completed. This is in the basement of the Realty Building formerly occupied by E. E. Johnson and Son.

KITTERY

Kittery, Dec. 6.—A reception to the teachers and parents was given on Friday evening at the Second Christian church by the Riverside Reading club. A musical and literary program was given followed by a social hour, and refreshments of coffee and sandwiches were served.

Mrs. Walter MacDonald, who has been ill the past few weeks, went to Rochester on Friday for a consultation of doctors. She was accompanied by Mr. MacDonald, and sons Joseph and Walter.

Mrs. J. E. Paul is restricted to her home by illness.

Mrs. Woodbury Keene, who has been ill the past three weeks is improving. Mr. and Mrs. John R. Coffey are soon to leave for Jacksonville, Fla., where they will pass the winter.

Phaenaxia Chapter, No. 90, O. E. S. meets on Wednesday evening next and will have an initiation and election of officers. After the meeting a program on Robert Morris, the founder of the order will be given.

Phonon Allen of North Berwick was in town on Friday.

The meeting of the Red Cross Public Health Committee to have been held this evening at the home of Mrs. Elmer J. Burdham will be held at the home of Mrs. Fred M. Stacy.

Mrs. Elmer J. Burdham is restricted to her home at the moment by illness. Mrs. Eva White of New Castle passed Friday in town the guest of her brother, Philip Emery and family.

Mr. and Mrs. Harold H. Hannon passed Friday in Boston.

Stillman Bowden and family have moved into their new home at Kittery Depot.

Miss Marion G. Pettie was a visitor in Rochester on Friday.

Franklin D. Clark of Lewiston, recently returned from overseas, is the week end guest of friends here, and leaves Monday for Guam, where he has accepted a position with the Pittsburgh and New Mexico Steel Co.

A meeting of a number of men was held in the vestry of the Second Methodist church on Friday evening for the purpose of planning a supper and entertainment to be given by the men of the parish. Plans were made for a chowder supper to be held on the evening of January 1st. The supper is to be entirely prepared and served by the men. After supper it is planned to give an entertainment, the men supplying the entire program. William M. Pife was made chairman of the meeting, and the following committees were appointed to make all the necessary arrangements: Eats, Rufus Adams; entertainment, Chester A. Caswell; reception, Harvey G. Grant; tickets, Chaplain A. J. Hayes; decoration, Frank Emerson; publicity, Rev. J. Frank Jenner. The men will meet again on Thursday evening, Dec. 18th, when it is expected the committees will be ready to report their plans are well advanced. The men expect to show the women some new things concerning the culinary art, and incidentally to do their part in seeing that Leap Year is favorably ushered in.

General William C. Miller of Augusta, Me., was the guest of Frank Cournoyer on Thursday.

EXETER

Exeter, Dec. 6.—The winter meeting of the Robinson seminary alumnae will be held on the afternoon of Dec. 27, and it is expected that on that occasion favorable reports of the alumnae fund will be made. This fund was started at this winter meeting in 1916 and is for a school home which can serve for at least three purposes. It could furnish opportunity for more advanced training to the pupils of the domestic science course, offer the members of the commercial course an opportunity of practical application of their study in caring for bookkeeping and correspondence and offer hospitality to the alumnae.

The work of raising the fund has been left to a committee composed of Misses Anabel Warren, Ellen Wentworth, Michel Cliley and Daisy Polansky, which has received generous contributions of late, one check being sent for \$1,000 as individual pledge. The date for the quinquennial reunion has been set for June 17, 1920.

The season of the church Christmas sales has commenced, and next week the sale of the Epiphany church will be held Thursday afternoon at the City hall, while the ladies of the Baptist church will hold theirs on Tuesday afternoon in the vestry.

On Saturday afternoon in the lecture room of the First church, the First Parish choir, and Thursday choir will hold their sale. The ladies in charge there are Miss Mollie Smith and Mrs. William A. Young.

The district nurse, Miss Ada R. Clark is established at 7 Maple street.

A son was born to Mr. and Mrs. Laurence M. Cresside.

Wesley H. Mitchell of Garfield court, was appointed as a special police officer by the police commissioners at a special meeting held last evening.

Lieut. Andre L'Hullier, 151st Infantry, 42 division, French army, will give an illustrated lecture in the academy chapel this evening.

HUNTER KILLED
BY HIS OWN GUN

Rochester, Dec. 6.—As the result of a running accident yesterday at Blue Job Mountain, ten miles from this city, Laban Chase of 12 Factory Court, 19 years old, is dead. He and his step-father Walter Davis, went to the mountain yesterday in search of deer, spent the night outdoors wrapped in blankets, and this morning resumed their hunt.

They were walking on an incline, ledge when Chase fell head first over the edge, his double barreled shotgun striking the ground a few feet ahead of him. Both barrels were discharged, the contents of one striking him in the head, killing him instantly, while Davis received the discharge from the other in his thigh. The latter's wounds are not serious and he was able to go to the highway and inform the local authorities of the accident.

Medical Referee Forrest L. Keay and City Marshal George H. Magoon went by automobile to the scene of the accident. Indications of the gun striking the ground were plain, both triggers being bruised and the gun slightly bent. The medical referee decided that death was caused by it.

PEOPLE OF PETROGRAD WILL SUBMIT

(By Associated Press)

Helsingfors, Finland, Dec. 5.—There is no likelihood of a rising of the people of Petrograd against the Bolsheviks, this winter no matter how terrible their plight may become, says I. Sapozhenko, a prominent art dealer of that city who sacrificed a fortune of 5,000,000 rubles to escape from Russia.

"The belief of starving the population into starting a revolution is a heresy," he declares. "So far as the Russians are concerned, they will simply die."

"General Yudenitch, without Finland's help, has no chance of taking Petrograd for he began his campaign a month too soon. If he had waited until Trotsky's men began to feel the pinch of the cold, along with insufficient food, their lowered morale might enable the attack to succeed."

Assisted by the wife of Maxim Gorky, M. Sapozhenko, convinced by lavish bribery of the Bolsheviks, to leave Petro-

grad. He arrived at Helsingfors a month ago. To a representative of The Associated Press he related the first time for publication his remarkable experiences from arrest in June while serving as a representative of the Finnish Government in negotiating for the exchange of war prisoners. M. Sapozhenko is a native of Finland, who has resided in Petrograd for the last ten years.

"Until March," he said, "we were never numbered 1 had been representing the Danish Red Cross until I took up the exchange of prisoners on March 11."

"After securing a written guarantee, signed by Scholovsky, the Petrograd commandant, and Tchitcheroff (Commissioner of Foreign Affairs) that my life and property would be safe, I was allowed to return to Finland. Nevertheless from April 22 until May 11 I was kept in detention in my own house and was formally arrested on June 2. I was then taken to Moscow, thrown into a military camp and treated worse than a dog simply because I was a Finn. I was kept in prison until August 8 when Scholovsky ordered me to be released."

"The contents of my Petrograd home consisting of works of art, jewels valued by Russian experts at 4,000,000 rubles are undoubtedly carried off and I

have no hope of seeing them again."

Commenting on the conditions in Russia, M. Sapozhenko said:

"The Allies blockade is destroying White Russia for the Bolsheviks naturally feed their own followers first and there is little left for the government's enemies who are perishing."

"I wish to reiterate that there is no possibility of a counter-revolution for the Russian peasants are incapable of acting without strong leaders. It was the Germans and not the people who brought about the revolution which overthrew the Emperor and later Kerensky. Before the revolution people could obtain two or three pounds of bread. Afterwards they were only allowed one-eighth of a pound, but they were too paralyzed to protest."

"There are only three to five per cent real believers in Bolshevism in Russia, and they, by using drastic measures, are able to swing the great masses over to their side."

M. Sapozhenko said that the central government, despite the control of the army, exercised little power over the local Soviets but the Bolsheviks have done considerable constructive work, especially in the establishment of trade schools. He said to educate the masses they have opened numerous night kindergarten and the state takes care of the children until they reach fourteen years of age.

He criticized the Allies' military aid to the White Russians as ineffective by saying that the Allies do not send supplies regularly and in sufficient quantities.

"The Finnish troops could themselves capture Petrograd as the Bolsheviks fear them more than all others. As a result of the Bolshevik propaganda during the war a Bolshevik officer announced that he would rather fight the devil himself than the Finns who never know who they are defeated. Seventy-five per cent of the task of conquering the Bolsheviks would be accomplished with the capture of Petrograd as that is the only way to inspire the blind confidence of the people who are believing in Bolshevism and in the infallibility of their leaders."

M. Sapozhenko continued reports of appalling conditions in Petrograd which the winter will make far worse, and said that all wooden houses had long since been burned for fuel as well as the flooring of others.

He asserted, however, that the depletion of Petrograd's population was not due so much to starvation as to the fact that the Bolsheviks had sent away the bourgeoisie and had removed prisoners to the interior.

Committee recommends that Argentina organize its own meat industry with municipal and regional cold storage plants and enter into direct relations with the great foreign markets of consumption. Finding that a milling trust exists, the committee declares that laws against extortionate capitalist combinations are necessary and that "we should educate our citizens economically and politically for the pacification of this industry."

EXPENSES OF NATION STARTLING

Washington, Dec. 5.—Demand that the utmost economy be observed by government expenditures was made in the Senate Thursday by both Republican and Democratic leaders during a discussion of the financial situation. Possibility of war with Mexico was mentioned and it was pointed out that this would entail enlarged appropriations.

Chairman Warren of the Senate appropriations committee said the estimates of \$1,355,000 for the next fiscal year, as prescribed recently by Secretary Glass, were "absolutely startling." He said this compared with estimated revenues of \$5,935,000,000 from all sources, including the postoffice department.

Senator Smoot, Republican, Utah, declared Congress would not provide the money requested in the estimates, adding that several Senators had agreed to talk bills to death if necessary. He urged that the war risk insurance bureau be abolished and that many of the government employees in Washington be discharged, asserting that the "number had been increasing instead of decreasing since the war ended."

Chairman Wadsworth of the military committee pointed out that the army estimates of \$382,000,000 were \$200,000,000 more than this year's appropriations and apparently were based on a peace-time army of 500,000 men. "I can assure the Senate," he said, "that not with my consent will there be any army of 500,000 men."

Senator McKellar, Democrat, Tennessee, a member of the committee, said he would join with Senator Wadsworth in opposing an army of 500,000 men.

"We seem to have gone military mad," said Mr. McKellar. "If we have war with Mexico that is another matter."

Declaring that the estimates probably would be exceeded when actual appropriations were made, Senator Thomas, Democrat, Colorado, urged economy, declaring that war with Mexico seemed "unavoidable" unless the Carranza government changed its attitude.

ARGENTINE IS AFFLICTED WITH TRUSTS

Buenos Aires, Dec. 5.—A committee of the Chamber of Deputies has discovered after more than a year's investigation that Argentina is afflicted with "trusts." Wine, flour, lime, potatoes, meat, and oil and naptha are described in a recent report of the committee as under the control of "trusts" which have been able to flourish and maintain high prices chiefly because of high protective tariffs or favorable railroad rates, it is charged.

The committee finds that the "most typical trust" in Argentina (the word "trust" is put in quotation marks throughout the report) is the wine trust. In the great grape-growing province of Mendoza on the slopes of the Andes, it is charged that this combination of wine producers is an "official trust" organized by the law of the province, which is able to pay the cost of the greater part of its administration out of "the local privilege created by the monopoly of wine."

Destruction of grapes and wine, exportation of wine at a low price and maintenance of a high price in Argentina are alleged. The "trust" is able to exist, the report says, by virtue of high customs duties which discourage the importation of ordinary wines and by the aid of the national banks, reform in the administration of the banks and in the tariff laws is demanded.

The committee names the Standard Oil Company of the United States, as the "trust" which controls kerosene and naptha in Argentina. The report sets forth that this "trust" not only controls oil but also has in Argentina a "powerful subsidiary company, divided in its legal aspect into one section of production, another of marketing and transport."

"The commercial practices of this trust," says the report, "are those of a monopoly which wishes to extend even more and consolidate. There is no proof that the 'trust' has determined upon increasing the price of kerosene and naptha in the country, but it is certain that its prices represent a relative increase, that is to say, with relation to the cost of production."

Argentina's defense against "this international and almost world-wide monopoly" the committee says, consists of encouraging commerce in and production of all other materials capable of producing light and heat and developing the production of petroleum as a government enterprise. "Every private enterprise will be multiplied or absorbed by the trust."

Dealing with meat, the report says that the exportation of this commodity is in the hands of great companies which are subsidiary to still more powerful foreign companies pointing toward capitalist monopoly. The

TO ATTRACT AMERICANS TO FRANCE

(By Associated Press)

Paris, Nov. 18.—The National Chamber of Hotel Keepers has begun an active campaign to make French hotels attractive to Americans. American ideas have been sought through an agent of the chamber in the U. S. A series of articles for hotel men is being published by the organization's official paper. The necessity of modern toilet conveniences, honest treatment, and otherwise conforming to the standards of the U. S. are emphasized.

Cleanliness is given the most attention by the chamber's agent in the United States and he cites conditions in some of the French hotels that would be surprising to an American. He recommends the use of white light paint to prevent the gloominess of interiors, greater illumination, recognition of the bath as the American point of view, removal of various unsanitary quarters from near the kitchen, elimination of little service charges and other changes.

"Breakfast," the correspondent says "is the American's best meal," and we must organize ourselves to give it to him and serve it quickly. Also ice cream is the national dessert; it is eaten morning and night. America has machines for making this dessert. Perhaps we can adopt a model and later make it in France."

The hotelmen are cautioned by the correspondent against "a veritable or-

EXETER

Exeter, Dec. 5.—The first political gathering of the coming campaign will be a special town meeting held in the town hall, Dec. 23, from 4 to 8 p. m. to choose a delegate to the Constitutional convention which assembles in Concord on Jan. 13. This is made necessary by a vacancy caused by the death of Dr. Albert S. Wetmore.

One candidate has thus far announced his intentions of coming out for the Constitutional convention in the person of Maj. Reginald C. Stevenson, Republican, who returned early in the year from duty in France. Major Stevenson has had wide experience in legislative matters, having served as a member of both branches of the Legislature, and he will probably be opposed for the position which he seeks. The other three members of the Convention from Exeter are Charles S. Bates, Ernest C. Tompkinson and John Seamon.

A second hearing was held Thursday before the Rockingham county commissioners, George A. Carleton of Exeter, William B. Underhill of Chester and Norman H. Beane of Portsmouth, regarding closing a road in Newton which runs to Country pond, a highway used chiefly by summer residents at the pond, which is partly in the town of Kingston.

The citizens of Newton voted at the last town meeting to close the road, but the citizens of Kingston oppose it. The Newton selectmen state that there is only one piece of property on the highway to their town and that it is valued at a small sum. Council in the case, County Solicitor William H. Sleeper and John Seamon, both of Exeter have agreed on a 30-day extension, hoping that a compromise may be effected by that time.

At the meeting of the First Parish church, which met with the Thursday club yesterday the business meeting was followed by a Christmas party under the chairmanship of Misses Helen and Ella Eastman and Margaret Kent.

The body of Mrs. Mary B. Sawyer, widow of Otis Sawyer, formerly of Exeter was brought here from Amesbury, Mass., Thursday for burial.

One hundred and forty-three students of Phillips Exeter academy have volunteered to assist the Exeter endowment campaign fund during the Christmas vacation.

UNDERSOLLS CANADA BY \$2.50

Wheat Director Offers Straight Wheat Flour for General Export at \$10.50 a Barrel

New York, Dec. 5.—The United States Grain Corporation is offering "to any foreign buyers" the straight grades of pure wheat flour which it has been handling for export, Julius H. Barnes, Federal wheat director, announced. Heretofore sales of this flour have been confined largely to supplying the Allies.

The flour position in the United States is now apparently easy enough to warrant the selling of these stocks. Mr. Barnes explained. He said this action "is but another step in the effort to assist the reconstruction of trade facilities outside of Government agencies."

Canada has advanced its price for export flour to \$13 a barrel, and Mr. Barnes said the United States would furnish large quantities of pure wheat flour at \$10.50.

The Grain Corporation has acquired large and constantly increasing stocks of wheat and flour have fallen off. Meanwhile no part of the \$1,000,000,000 appropriated by Congress for the purpose of carrying out the wheat price guaranty provisions have been used for the purpose evidently intended by Congress—to lower the price of bread in the American homes.

GERMANY IS AFTER THE MEXICAN TRADE

Vera Cruz, Dec. 5.—The first German vessel to arrive here since the beginning of the war has reached this port with a mixed cargo of hardware and drugs from Germany. The captain announced that several other vessels soon will leave Hamburg for Mexican ports. He confirmed previous announcements that Germany is planning an aggressive campaign for Latin-American trade.

Vaughan street for such a busy section is the poorest lighted part of the business district.

The President's Message.

While President Wilson in his message to Congress touched upon the various important matters before the country in a manner to command the serious attention of that body and the people, the part of the document which will be of most general interest is that in which he deals with the question of law and order and the upholding of American institutions in the face of assaults from within or without. After pronouncing this "the hour of test and trial for America" the President spoke of the way in which the country had demonstrated its strength and purpose to vindicate on foreign battle fields the American conception of liberty and justice; and he feels that a country which could do what America did in the World War should be able to mediate properly between capital and labor and to avoid standing before the world as a nation incapable of settling justly and fairly matters of purely domestic concern.

President Wilson believes, as does every intelligent and loyal American citizen, in the principle of majority rule. He speaks of those in this country who threaten "direct action" to force their will on the majority, and points to Russia, "with its blood and terror, as a painful object lesson of the power of minorities." Mr. Wilson is convinced that true reforms can be accomplished in this country only through the orderly processes of representative government, and rightly pronounces those who would seek changes and reforms through other means enemies of the country. And, notwithstanding present unsettled conditions, President Wilson has full faith in the future. He says: "America will not be daunted by threats nor lose her composure or calmness in these distressing times. We can afford, in the midst of this day of passion and unrest, to be self-contained and sure."

These are plain and simple facts to be borne in mind at a time when the country is agitated as never before in time of peace. Labor troubles and the cost of living are keeping the country in a ferment, and there are those who fear that even greater troubles than those of the present are in store. Men and women who believe this may well consider the President's words and take heart, for it is true, as he says, that "we can afford to be self-contained and sure."

But, while this is so, the country cannot afford to close its eyes to dangers that are very real. While there is no reason to fear the overthrow of the government or conditions even resembling those in Russia, it must be remembered that there are dangerous elements which must be suppressed before the country can enjoy the peace and safety to which it is entitled. The great majority of the people, including those spoken of as "foreigners," are loyal and law-abiding and their desires must not be overrun or overruled by any minority—any group of citizens disposed to regard their own interests as paramount to those of the people.

Important as is the message in every respect, it is these thoughts that will strike the people most forcibly. If the country's institutions are not to be firmly upheld it will make little difference who owns or operates its industries or how they are operated.

But its institutions will be upheld, and, to repeat once more the words of President Wilson, "We can afford, in the midst of this day of passion and unrest, to be self-contained and sure."

NAVY YARD NOTES

Sweepers and Eagles.
Four Eagle boats, 19, 23, 24, 27, and nine sweepers Osprey, Lark, Mallard and Cormorant arrived this morning.

450 Are to Go.
Up to date four hundred men from the mine sweeping fleet have been ordered discharged. These men were in the service for duration of war and could not take advantage of being discharged on earlier dates owing to having been on duty in the North Sea. So far 150 have gone back to civil life.

Must Pay Their Bills.
On account of numerous complaints received at Washington regarding the non-payment of bills by ships, the Department of Supplies and Accounts states that all bills should be paid within a reasonable time, and that it is the duty of commanding officers of ships and shore stations to see that bills are presented promptly and paid as promptly and that no ship should leave port until it has paid all the bills it has contracted.

Only Few Marines.
Charlestown yard now has only a small number of marine guards at the station barracks owing to a large number being sent to Haiti during the past week.

Chewink Arrives.
The mine sweeper Chewink arrived last night from the Charlestown yard.

Case in Commission.
The destroyer Case was placed in commission at Boston today.

Uniforms Ordered.
The yard basketball team have been measured for their suits which will be

purchased from the manufacturers, Deaper, Maynard Company, at Plymouth. The rig will consist of crimson jersey, steel gray trousers with stockings to match.

Working in the Harbor.
The board of inspection and survey were obliged to go to the lower harbor today to look over the mine sweeper Osprey.

A Short Stay.
Lieut. Comdr. Schuyler Mills, who reported at the yard on Monday last for duty on the S-5, has been detached and ordered to command the S-1 at New London.

Looking for More Coal.
Another cargo of coal for the yard is due to arrive between now and Dec. 15.

NAVY YARD BOWLING

In the navy yard bowling tournament the Industrial Department team took a fall out of the team from the destroyer Bell on Friday by 272 pins. The score:

	Industrial Dept.	
Brownell	148	127 114-38*
Osley	119	92 115-321
Kingsbury	190	157 193-48
Reener	134	143 146-48*
Crowell	135	134 110-379

	U. S. S. Bell	
Haskins	725	653 618 1997
Brookert	141	100 123-364
Furkildsen	124	141 88-350
Gilmour	83	85 152-323
Goss	98	128 148-369
	79	114 129-322

At a meeting of the athletic officers yesterday it was decided to offer towards the following:

Highest total team score.
Highest individual team score.

THUMB-NAIL SKETCHES OF PERSONS YOU OUGHT TO KNOW

GEORGE A. WOOD.

A familiar personage in the business section of the city is George A. Wood, who is engaged in the insurance and real estate business. For quite a number of years Mr. Wood was deputy collector of internal revenue and secretary of the Railway Mail Association. In politics he is a Republican and has served in the city council and two terms in the New Hampshire general court. He is a member of the Warwick Club, and secretary of the Paul Jones Club, S. A. R.

For Xmas, the King of Surprises

A brand new suit or overcoat to wear on Christmas morning along with that new shirt, tie, hose, muffler, and practical and cheer bringing gifts will make Christmas the real King of surprises. Why not, Mr. Man, leave your measure with us and have a suit made by our tailors—

Ed. V. Price & Co.

Come In Today and Look Over Samples.Parsons
The Hatter
POLICE COURT

The continued case against Theodore Parsons was heard in the municipal court today. He was charged with refusing to stop his automobile on Lexington street on the night of Nov. 28, when it was alleged he struck a factory girl named Susie Papes, who has since been in the hospital. A half dozen witnesses were heard. Both father and daughter took the stand and caused a surprise with their testimony which was conflicting very much with the previous stories told the police at the time when the arrest of Parsons was made. Several of the witnesses saw the accident near the corner of Cornwall street but were unable to say who the driver of the automobile was. The girl's father has previously told the police of a statement made by Parsons to him about the accident but the court decided that the evidence was not sufficient and discharged the defendant.

POLITICAL ADVERTISEMENTS

Portsmouth, N. H.
Tom C. Leckey to the Public:
There are a good many people in Portsmouth who do not understand this wrangle in the political situation about Leckey and his kick. It is easily explained to you all in a very few words. I was on the council two years and was booked for this next council but I declined as I said, I had been there long enough. I was going on the Board of Public Works as I could do better work there, and the road roller came along and spiked me because they knew of some one else. I am not particular about this place only I don't like to be slammed. I told the Road Rollers I would run independent. If you want to see weight take a look at one of your principal avenues (Miller avenue) from Middle to South about one-half mile long. Some of the snap shot shooters should take a snap shot of it before the big snow storm comes and Billy Dowden gets his snow plow out to make a path for people to get into the city "when the cars don't run. If you want to vote for me, all right. Just write my name in full as below and put a cross at the end. You have read the first this is the last "good night."

Lighthouse
KEEPERS IN
BAD PLIGHT

Halifax, N. S., Dec. 6.—The probability that the government steamer Aramoora would be a total loss, as indicated in radio messages received here last night, but the men at the lonely lighthouses and wireless stations on the Labrador coast and islands of the Strait of Belle Isle in a serious plight. The Aramoora was carrying winter supplies of food and other necessities to these points and already was overdue on her trip from Prince Edward Island when she ran on the rocks on Wednesday. The messages that came through last night from the government steamer Montcalm said that the place where the Aramoora grounded was Cape Whipple, on the Labrador coast, near the entrance to the Strait of Belle Isle. She was pounding so badly in the heavy sea that the captain and crew left the steamer late yesterday and rowed to an island in the vicinity to spend the night. The Montcalm reported that she could not get within two miles of the Aramoora because of the severe weather and dangerous shoals, and that it was probable that the steamer could not be saved.

SALVATION ARMY
MAKES APPEAL

The Salvation Army collection kettles were placed on the streets this morning to obtain funds for the Christmas dinners for the poor and for winter relief work. With the high cost of living there has come more need among the poor this year and the Salvation Army has more calls for help. If any one had seen the needs as Captain Farrar did when he went on his investigation trips before giving out cards for the Thanksgiving dinners he would be only too anxious to give his contribution for the cause. Basket dinners are again to be provided for the poor at Christmas time. Don't pass the Salvation Army collection kettles without putting in some of your loose change. Saturday is a long day for the collectors and it is a strain to stand by the collection kettles from nine o'clock in the morning, especially so for young misses as the daughters of Captain Farrar being in charge of the collection kettles much of the time today.

SERVES NOTICE
ON MINERS
AND OPERATORS

Knoxville, Tenn., Dec. 6.—Notice was served on miners and operators here today by Gov. Roberts that all the resources of the state in men and money would be used to produce coal unless the strike was ended speedily. "The owner of a coal mine has not the right to use his property or decline to use it to the detriment or injury to the public," the Governor said, "and on the other hand the moral right of the men to strike is not in any sense an absolute one."

ST. JOHN'S NOTES.
All persons connected with St. John's Church are requested to remain home Sunday afternoon to meet those who will call in the interest of the Nation Wide Campaign. Everyone is requested to attend church service on Sunday morning.

Mrs. W. E. Paul and daughter have returned from a few days' stay in Boston.

NO TIME
FOR PARTY
DISTINCTION

(By Associated Press)
Manchester, Eng., Dec. 6.—Premier Lloyd George, speaking before the Reform Club today, totally rejected the suggestion that the time had arrived for a renewal of party distinctions by the Liberals and Conservatives. He pointed to the experiences of the United States where he said party strife had been renewed prematurely, in consequence of which peace was jeopardized and the league of nations endangered in the land which took the most prominent and distinguished part in its promotion. The Premier

pleasantly entertained Friday evening at the home of the teacher, Mrs. A. D. Merrill. After all had arrived and been cordially greeted the evening's program began.

Each member present impersonated some woman mentioned in Scripture and a short Bible reading was given about each character. Some of the costumes were very attractive. A game called "Bible Characters" also interested the company.

Money biscuits, fruit punch and chocolate candy was served by the hostess, who entertained her guests in a

hospitable manner and the good attendance of class members shows how much such gatherings are enjoyed.

NURSES ARE SCARCE
IN MASSACHUSETTS

Hospitals and similar institutions in Massachusetts because it is impossible to obtain enough nurses and attendants, the demand for such help being very acute, according to the monthly report on labor conditions submitted yesterday by Superintendent Underdale of the state employment office in Boston.

Residents of Portsmouth and Vicinity who have rooms to let

to workmen coming into town should register them at the Employment Bureau of The Atlantic Corporation. Cards will be mailed on request that will give the desired information required by the Bureau.

Everyone living here should do their all to properly care for these new arrivals.

PERSONALS

Baldwin A. Welch on Saturday quietly observed another anniversary of his birth.

Washington Stott has taken employment at the store of A. O. Bennett.

Mrs. Emma V. Heber of Cabot street is on an extended visit to New York city and Buffalo.

Mrs. Lizzie Estey of Danvers, Mass., is the guest of Mr. and Mrs. George P. Fernald of Maplewood avenue.

Mrs. Frank Hulsar of New York has arrived to pass the holiday season with her parents, Mr. and Mrs. Valentine A. Hott.

On Sunday Charles A. Varrell, a former chief engineer of the fire department will quietly observe another anniversary of his birth.

**GALAHAD CLUB
ELECTS OFFICERS FOR
COMING YEAR**

The Galahad Club of the Everagat school, a boy's club which was organized six years ago among the boys of this school, started again this week. At the business session the following officers were elected.

President, James Cavaretta.
Vice president, Robert McCourt.
Secretary, Norman Downing.
Treasurer, Eugene Barrett.

The club has started this year with 35 boys of the Everagat school and as boys of the Junior High School may continue their membership others will join later. The meetings of the club are held each Monday evening from 6:45 to 8:15 o'clock. The program includes each week and includes athletics, music, games, radio-phon talks, etc. At least two teachers of the Everagat school are present at every meeting and they assist with the programs from time to time.

Special meetings have been held at different times with invited guests. Several times during the winter the club has a party and invites girls of the school. The club meetings are held in the kindergarten room which is all too small and for this reason not all can belong who would like to join. This again shows the need of a community house for the school.

JOHN LANGDON CLUB

The first meeting of the John Langdon Club of the present season will be held on Monday evening, December 8 at the North church chapel on Middle street and the speaker will be Robert W. Kelso, executive director of the Massachusetts State Board of Charity who will speak on "The State and the Individual." Refreshments will be served.

NO MORE DODGING AUTOMOBILE TAXES

Council Elects Register Under New Law Who Collects Taxes Before License is Granted--Council Recommend More Pay For City Workmen

A special meeting of the Mayor and Council was held on Friday evening with Mayor Hildon presiding, and councilmen Leakey, Venton, Matthews, Hildon, and Dunn present.

The meeting was for the purpose of appointing a special agent to take care of the new automobile tax law, which provides that before the owner of a car may register or obtain a license, he must first pay the tax on the automobile with the agent of the city or town in which the automobile is owned. The tax assessor, John Farwell, of this city, was appointed for this duty.

The Council appointed Tax Collector Walter H. Lane as the registering agent for this city.

The Finance Committee, to whom the petition of the workmen in the street department for a raise was referred, made the following report, that Councilmen Venton and Leakey accepted and adopted.

The Finance Committee reports, on the petition of the city workmen, that they have heard the petitioners and find that the laborers on the city receive \$3.00 per day, \$2.25 per day and five special men \$3.00 per day. Some of the men have had an extra hour per day allowed on the payroll, while others get several extra days per week.

We also find that the petitioners have not received pay for legal holidays. We believe that the council has no jurisdiction over these matters and that the Board of Public Works, set at all employees of the Street Department, be given \$1.00 extra per day. The same to date from December 1st, 1919, that in future they receive full pay for all legal holidays. Also, that the practice of allowing extra pay for work not performed, be discontinued.

A petition of Samuel Trumbo for permission to sell gasoline and other cars in his brick garage on Fleet street, was granted.

A bill of George Hugg for four hens killed by dogs, was referred to the Committee on Claims.

The following is the copy of the new auto registration law of interest to every automobile owner. It will be noted that under this law the tax is assessed on the auto no matter at what time of the year it is owned.

An Act relating to the registration of motor vehicles.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1--No motor vehicle owned or controlled by a resident of this state shall be registered under the provisions of chapter 133 of the Laws of 1917, as amended by chapter 81 and chapter 171 of the Laws of 1918, chapter 129 of the Laws of 1919 and chapter 229 of the Laws of 1917, until the owner or person controlling the same has obtained a permit for registration from the city or town wherein such owner or person resides. Provided, however, that this section shall not apply to motor vehicles which constitute stock in trade of a manufacturer or of a bona fide dealer in such vehicle.

Section 2--Whenever the applicant for a permit has been assessed for taxation, during the calendar year, directly upon the whole or a part of the property which has been used in the purchase of the motor vehicle, the assessor or selectors shall so certify, and upon the production of such certificate by the applicant, the city or town clerk shall issue such permit without the payment of fees, or upon the payment of the fees provided for in section 5 reduced by the per cent of such assessed property which has been so used in the purchase of such motor vehicle.

Section 3--A receipt or other permit shall not be required in any one calendar year when the ownership of a motor vehicle changes and an original permit has been granted for the registration of the motor vehicle.

Section 4--Such permits shall be in form prescribed by the commissioner or motor vehicles for the state of New Hampshire; shall be issued in duplicate, and one copy delivered to said commissioner at the time application is made for registration of the motor vehicle, and be filed with the application.

Section 5--The treasurer of each city, or such other person as the city government may designate, and the town clerk of each town, shall collect fees for such permits as follows: On each motor vehicle offered for registration a sum equal to a system of rates on each one dollar of the maker's list price for the current year of model, twelve mills for the first succeeding year, nine mills for the second succeeding year, five mills for the third succeeding year, three mills for the fourth and succeeding years.

Section 6--Each designated city or town and each town clerk shall keep an accurate account of the money received by him for said permits and deposit the same in the city or town treasury to be used for the general purposes of the city or town. Town clerk shall be paid on order drawn on the town treasurer by the selector twenty-five cents for each permit issued.

Section 7--For permits issued under the provisions of this act during the period beginning with the first day of September and ending on the thirty-first day of December, in any year, the fee shall be one-half of the sum named in section 5 of this act.

Section 8--All permits for the registration of motor vehicles provided for by this act shall expire at midnight upon the thirty-first day of December of each year.

Section 9--This act shall not be construed to alter or amend the provisions of the acts named in section 1 of this act, either then in force or to prohibit registration of motor vehicles under said acts until the permits herein provided for have been obtained.

Section 10--Motor vehicles owned or controlled by residents of this state are hereby exempted from taxation except when held by a manufacturer or bona fide dealer as a part of his stock in trade.

Section 11--This act shall take effect at midnight on the thirty-first day of December, 1919. Approved March 20, 1919.

TRAPSHOOTING TODAY AT COUNTRY CLUB

A combination trap and revolver shoot will be held at the Portsmouth Country Club this afternoon. The trap shoot which will be a feature of every Saturday during the winter months when the weather will permit will be twenty-five bird events. The revolver shooting will be in the nature of a practice shoot at the new revolver butt and targets will be provided. Since the burglar scare there has been a very heavy sale of revolvers and this will be a good opportunity to see how it shoots.

LEONARD DEFIES BOXING BOARD

Benny Leonard, world's champion lightweight, not satisfied with "lighting" in ring parlance, in his bouts with Soldier Parfitt and Irish Patsy Cline has looked horns with the New Jersey State boxing commission. Prior to his recent fight with Johnny Dundee at Newark, he rejected the referees selected by the commission and threatened to set 8000 fans flat on their backs by starting to dress and leave the arena. John S. Smith, chairman of the commission quickly realized the condition. He asked a near riot about Leonard leave the building and only to prevent trouble and possible injury to the spectators, he yielded to the whims of Leonard and his manager.

Now Leonard is billed to box Jack Britton in a New Jersey fight. Before the bout taken place here is what the public must expect. It is given publicity for protection. It is a punch straight from the shoulder.

First, Benny Leonard and Jack Britton must be satisfied with the referees selected by the boxing commission; second, Leonard must step on the scales in the presence of any members of the commission who choose to be present and submit to a public weighing; third, and most important of all, so far as the fight fans are concerned, the referee will be instructed to stop the bout the moment he is convinced the boxers are not "trying" or giving their best and dismission from the ring. The commission can further tie up the purse and if in their judgment the bout is a fake, the money can go to the state or any elected charity.

Friends and admirers of Leonard may consider this a bit drastic, but this thing has come when boxing in this country must be purged of the "fads."

TOO FEW CIVIL SERVICE APPLICANTS.

The Civil Service Commission invites special attention to the fact that in examinations held recently in cities throughout the country, including Portsmouth, N. H., for the positions named below, applicants were not secured in the number desired, and that the examinations will again be held on December 10:

Medical internes, St. Elizabeths Hospital; veterinarians and lay inspectors, Bureau of Animal Industry; domestic science teachers, teachers and matrons, Indian Service; apprentice fish culturists, Bureau of Fisheries; physical laboratory helpers; file clerks; proof readers; operators of calculating machines; card-punching machines (operatives); dictating machines, graphotypes; addressographs, mimeographs. Examinations for the above positions named last are for employment in the Department of Service at Washington, D. C.

Persons interested in these or other examinations should apply to the Secretary of the U. S. Civil Service Board at the local postoffice for detailed information and application blanks.

HEARD ON THE STREET

Unwise--I have given up trying to get some of those rubber stoppers for bottling my home brew.

Wise--You don't have to. You can get a machine at Boynton Bottling Works, 47 Bow St., for 75 cents that will put the tin caps on the same as they have on the Evans' Cherona Brew. By the way have you tried that Evans brew? It is the best of them all.

NO DANGER OF HARD COAL FAMINE HERE

There is no real fear of any coal shortage in this city in the hard coal market and this is the general market which affects this city. Outside of the Rockingham Light and Power company the big user and the industries lesser users of soft coal the greater amount of coal used here is hard coal.

Some persons have confused the two and become panicky, but there is no strike in the hard coal mines which are turning out more coal than ever, and the only blow was the recent strike of the low boats, which delayed water transportation. This has been settled and coal by water is expected by the local dealers. One local dealer received eighteen cars of hard coal this week.

REGISTRARS MUST HOLD SPECIAL MEETING

Under the recent amendment to the primary law, it will be necessary for the Board of Registrars to hold a meeting 100 days before the primaries, for the purpose of allowing voters to change their party affiliations which they have declared. Under the law ten days notice is required, but the first intimation of the local Board and of the law was an order from the State received on Friday. As Monday is the last day that such a meeting could be held the Board have set that date. The Board will be in session all of the day for the sole purpose of making the changes, and will not put names on the check list for the election.

Under this law a person who has designated one party, but who wants to change and vote a different party in the primaries, may do so by filing his intention with the Board of Registrars.

JUNIOR PROM AT THE HIGH SCHOOL

The Junior Prom at the Portsmouth High school, was held on Friday evening at the Assembly hall and it was a decided success. The Junior class was the host for the Senior and Sophomore classes and following a short reception there was dancing until midnight. The women members of the faculty were the chaperones and music was furnished by an orchestra.

SCHOOL MEN AT CONFERENCE

Supt. W. H. Slayton and Prin. Lee Gray of the High school attended a superintendent and school-masters conference at New Hampshire college on Friday afternoon.

HAVE YOU SCROFULA?

Now Said to Be as Often Acquired as Inherited.

It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption.

It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise.

Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

If a cathartic or laxative is needed, take Hood's Pills--there is nothing better for biliousness or constipation.

NOTICE TO VOTERS

The Board of Registrars of Voters will be in session in the Council Chambers at City Hall on the following dates: Friday, Nov. 21, Tuesday, Dec. 2, Wednesday, Dec. 3, from 9 to 12 o'clock a. m., and from 2 to 5 and 7 to 9 o'clock p. m., to prepare check lists for the coming Municipal Election Dec. 9, 1919.

Also on election morning for the express purpose of issuing certificates to those legal voters whose names may have been omitted from lists through mistake.

A special session will be held at the Council Chambers at City Hall on Monday Dec. 8 from 9 to 12 a. m. and 2 to 5 and 7 to 9 p. m., for the purpose of allowing voters to change their party enrollment.

JAMES McCABE, Chairman.
FRED T. HARTSON, Clerk.

PSYCHOLOGIST SPIRITUALIST

If you are experiencing either domestic business troubles and are in doubt and suspect that matters are not as they should be, or you desire to know what you are best adapted for, what you should do to make life pleasant and a success, and you desire to be advised properly on the most vital and important affairs of daily life, be sure to consult a psychologist. He tells you how to be successful in business, love, marriage, divorce, children, health, travel, law suits, and everything good or bad. Tells you the names of your friends, enemies or rivals; whether husband, wife or sweetheart is true or false. How to gain the love of the one you most desire even though miles away. How to marry the one you desire. YOUR SECRET TROUBLES, the cause and remedy, in fact, tells everything. \$1.00 and up for ladies. Appointment by card only.

LARGE VALVE PARTS

and similar articles of large size when great strength and accuracy are required are repaired perfectly when cracked or broken, by our expert welding service. Thorough knowledge of heat expansion of metals, long experience in the different branches of welding make our service dependable and economical.

Everybody is talking about
our new

Semi-Indirect Fixture

Just pull the chain and you have a steady mellow light suitable for any purpose.

When it costs less than a cent an hour to burn is there any good reason why you should not have at least one of these fixtures in your home?

PORTSMOUTH GAS CO.

Always at Your Service.

10:30 a. m. Evesing and Sermon. 7:30 p. m. It is hoped that all parishioners will attend the services on Sunday the Day of Consecration. Nation-wide Campaign.
In the afternoon the canvass of the Nation-wide Campaign will be made. It is asked that those to be visited may remain at home to receive the canvassers when they call. It will help very much if people will have their pledge cards made out and ready. Canvassers and workers are urged to make Corporate Communion at 7:30 a. m. The new Church hymnals will be used at all services on Sunday.

NO CHANGE IN COAL SITUATION

(By Associated Press)
Washington, Dec. 5.—The general coal situation was discussed again today at a meeting of the President's Cabinet but no indication of what new steps were contemplated by the government to meet increasing demands for more fuel to keep the big industries in operation.
Fuel Administrator Garfield and Director General Hines who attended the Cabinet meeting, who have been doing Dr. Garfield later conferred with the Department of Justice and the Executive committee of the Soft Coal Operators of the United States. The Fuel Administrator indicated that the coal production was increasing over last week.
The Operators' committee found a statement characterizing as "vicious and misleading" the published reports to the effect that they were considering a compromise with the striking miners by paying them more than the 14 per cent suggested by the Fuel Administration and raise the price of coal. There will be no compromise they said on the present demands of the miners.

TO INCREASE IMMIGRATION TO SOUTH AMERICA

Rio de Janeiro, Dec. 5.—Plans to increase greatly the number of immigrants suitable for agricultural work in Brazil are under consideration by the federal authorities. Dr. Lopes, the Minister of Agriculture, has just given to President Pessoa details of a plan which will serve as a basis for a message to congress. It proposes that congress appropriate the equivalent of \$500,000 to be used in defraying the expenses of 5,000 agricultural laborers who will be embarked in European ports for Brazil within the next few months. Three thousand of these laborers will come from Mediterranean ports and 2,000 from northern Europe. The money advanced to these men is to be refunded to the government later.

GERMANY STILL HAS A BIG ARMY

Berlin, Dec. 5.—Commenting on the Entente note regarding the German police and troops, the Berliner says: "It is a monstrous deception that the Entente note is not in contravention of the treaty stipulations. Citizen guards regularly do military drill, including musketry and the throwing of hand grenades; the members of the guards keep rifles and hand grenades in unknown quantities in their houses. The so-called public security police and troops are led by active service officers and are equipped with heavy machine guns, flame throwers and other weapons. Furthermore, their service is purely military."

PLENTY OF POSITIONS ARE VACANT

(By Associated Press)
London, Dec. 5.—Sir Albert Stanley, a former president of the Board of Trade, has stated that there were plenty of positions vacant with salaries of \$25,000 to \$50,000 a year, but the great difficulty was to find men capable of filling the bill. It was quite easy to find men for positions of \$25,000, \$40,000 or \$50,000 a year.

ODD ITEMS FROM EVERYWHERE

A dispute about a division fence which has stood for 75 years in Reading Penn. was settled in court by the testimony of Mrs. Sarah N. Benade who is almost 88 years old.
A letter addressed to "Four Black Cats" remained undelivered at the Philadelphia Postoffice until it was discovered that just before Halloween four girls constituted themselves a committee of arrangements for a Halloween party and chose the name "Four Black Cats" for themselves. The postoffice clerk who tells the story says that a negro in the city is always addressed with "She" prefixed to his name in communications from his lodge of a fraternal order of "Knights and Ladies."
For the first time in the history of logging in this country a tractor is in use for skidding logs. At the woods near Marlquette, Wis., where sawmills make the use of tractors impossible, the tractor is operated by an Army man who had experience in France.
Lady Pauline, Ohio's White Orphan queen of 1918, now prominent in a Kansas City poultry show, is insured for \$2500, and gets a medal because she laid 252 eggs in one year.
Monkeys are now being used by the students of Industrial Journalism at the Kansas State Agricultural College their aim being to distinguish themselves from persons in other departments. (When they decided upon this step at a recent meeting monkeys were chosen rather than other barnyard of superlatives because they were "not able for both men and women.")

NOTICE TO ELECTRICAL CONTRACTORS

Portsmouth, N. H., Nov. 25, 1919
Bids will be received from electrical contractors for electric wiring for new Central Fire Station for City of Portsmouth, N. H. sealed bids to be accompanied by a certified check for two hundred dollars (\$200.00) and marked "BID" and left at City Auditor's office on or before Dec. 6, 1919, at 6 p. m. COULD SUPPLY POWER IF PLANT HERE SHUT DOWN

But Would Mean More Apparatus and Take Some Time.

The possibility that the big power station of the Rockingham Light & Power Co. at Portsmouth may soon be closed because of lack of fuel has led many to query whether it would not be possible to keep the electric cars in motion by taking power from the Newburyport Gas & Electric Co. It is learned that in order for the local company to supply power to the railroad there would of necessity be installed additional apparatus at the Salisbury station and that an extra wire would have to be laid across the harbor. The local company is fast approaching the limit of its capacity, but it is entirely possible for it to increase the size of its plant and to take on an additional business that may be offered. It would take time, however.

So there is little hope that the local company could give immediate relief to the street railway situation should the difficulties at the Portsmouth station become acute. Newburyport News.

FORMER BOSTON MAN WEDS LOCAL GIRL

The marriage of Maude Alice Wilcox of this city and Stanley Dynkowski, U. S. N., formerly of Boston, and now on duty at the naval prison at the Portsmouth navy yard, recently occurred in this city, the ceremony being performed by Robert M. Herrick, J. D.

The couple was attended by Miss Olive Cameron of this city and Kenneth W. Halliday. Mr. and Mrs. Dynkowski were quietly married, and the fact was not known only to their nearest friends for several days. They returned from their wedding trip to New York and other points of interest a few days ago and will reside on Columbia court, this city.

MISS BEANE TO BE GIVEN RECEPTION BY GRAFFOIT CLUB

The Graffoiti Club is to give an informal reception to Miss Katherine Beane at the Woman's Building on Thursday evening, Dec. 11. Miss Beane who is a member of the club, has recently returned from seven months service overseas with the South College Unit, doing canvas work at the Y. M. C. A. headquarters in Paris.

MORE PAY FOR CITY WORKMEN

Public Works Will Grant Increase Asked For.

The Board of Public Works having previously asked the city council for a special appropriation with which to increase the pay of city laborers, and the council having at its meeting Friday evening accepted the report and recommendation of its finance committee that all employees of the Street Department should have more pay, it looks as though the laborers are sure of a raise.

ORDER ROWSE SENT TO THE BOSTON YARD

Navy Lieutenant With Big Criminal Record Will Not Be Tried Here.

Lieut. Edward J. Rouse, the much wanted man in the navy, who was arrested at the Portsmouth navy yard on Wednesday last, will not face the court martial held at the local navy yard. His trial will take place at the Charlestown yard as directed by the Secretary of the Navy.

Rouse was removed to Boston on Friday afternoon under guard.

According to the latest information relative to Rouse he has quite a criminal record covering quite a period in this country and France. Besides several other military offenses, for which he will be tried, the most serious charges against him are those of passing worthless checks, fraudulent enlistment and desertion. The court martial board at Charlestown will likely hear the case next week.

HELD ANNUAL MEETING AT ST. JOHN'S RECTORY

The annual business meeting of Chapter No. 562 of the Brotherhood of St. Andrew was held at St. John's Rectory Friday evening and the following officers were elected.

Director, Sidney S. Trueman.
Vice Director, Richard H. Philbrick.
Secretary, Benjamin W. Burke.
Treasurer, Walter W. Clark.

This organization is composed of churchmen in this country and Canada doing all manner of personal work among men. The recent convention at Detroit showed that progress was being made in many places and plans were made for greater Christian effort during the coming year. There are two flourishing chapters in this city.

A monthly magazine is issued by the Brotherhood at the National headquarters in Philadelphia for one dollar a year which is well edited and contains much of interest.

SPECIAL TRAIN FOR PYTHIANS IS CANCELLED

Visitors From Lynn Will Come in Regular Train and Remain Until Morning Pullman.

Harry H. Foote of the Joint committee of Duxton and Constitution lodges, Knights of Pythias, who had arranged for a special train to bring the members of Peter Woodland Lodge of Lynn to this city for the Pythian big night on Monday evening, received word on Saturday morning that owing to the fuel shortage it would be necessary to cancel the train. This will necessitate the members of the Lynn lodge leaving that city on the regular train which arrives here at 6.25 and remaining here until the morning Pullman. The canceling of the train will not interfere with previous plans, other than to keep the visitors here two hours longer.

Plans for the big night are practically completed and it is now expected that the event will be the largest Pythian gathering ever held in this section of the state. The Grand Chancellors of Maine and New Hampshire and other grand lodge officers have accepted the invitation to be present on this occasion.

WILL HOLD MEETING AT HIGH SCHOOL HALL

The Farragut, Haven, and Lafayette Parent-Teacher Association will unite in a meeting to be held at High School Hall Monday evening, Dec. 8, beginning at a quarter before eight.

Edward T. Hartman, secretary of the Massachusetts Civic League of Boston will be the speaker, his subject being "Play and Recreation as Social Forces."

Mr. Hartman has been connected with the Civic League for a number of years, and is well known as a speaker on civic and social topics. He will bring to the people of Portsmouth the most advanced ideas on these vital subjects. The Junior High School Orchestra will render a short program before the lecture, and Mr. Ernest P. Blinnick, director of music in the Portsmouth schools, will sing a group of songs. [The officers of the association will hold a reception at the conclusion of the program. The public is cordially invited to attend this meeting.]

CITIZENS!

The newspaper CONTROLLED by MR. HISLOP and the REPUBLICAN RING printed an account of the Democratic Rally of Thursday night in Friday's issue.

Although people were not surprised to learn that this paper refused to print the facts about the Hislop administration, they hardly expected that the paper in its despairing efforts to elect Mr. Hislop would descend to DELIBERATE and WILFUL LIES, but such is the case.

The paper said that ex-Mayor Marvin, one of the speakers at the Democratic Rally, paid Mr. Hislop "many compliments." This is a wicked falsehood, printed to deceive YOU.

Mayor Marvin paid Mr. Hislop no compliments. He said that Mr. Hislop was NOT a suitable man for Mayor because his many outside interests caused him to be "spread too thinly over the town," that Portsmouth was too important a city to be governed from the State House, a quick lunch restaurant, a law office, a garage, a hotel, a moving picture house, or a livery stable, and that the extravagance and high taxes of the Hislop administration, if continued, would drive the citizens "back, back, back to the Alms House field as their only haven of refuge." This is a good sample of the way Mr. Hislop and the Ring try to fool you.

Another campaign lie nailed. Mayor Hislop claims that when he came into office there was no money to run the city on. HIS Auditor's Report shows that there was \$39,000.00 available for this year's expenses after Mayor Ladd had reduced the city debt by \$30,000.

SOME FACTS—1918 Tax Rate was \$22.80; Mayor Hislop's tax rate this year was \$27.00, and besides this, under Hislop, the people who own their homes had their valuation increased. Under Mayor Ladd, with a low tax rate, the city's bills were paid, the city debt reduced, and good service given the citizens. Under Mayor Hislop, with a high tax rate, the CITY DEBT has been greatly INCREASED, extravagance has been the order of the day, and if there is not a large deficit January 1, it will be surprising.

Now YOU have to PAY THE BILLS. Do you want another year of Hightax Hislop?

It costs enough to live now. If Mr. Hislop feels the taxes too much he can charge us all more to get into the movies, but we've got to grin and bear it.

Why not protect ourselves and our families by putting in office men who will run the city economically with the least possible expense to the already overburdened people of this old town?

Let's get together and TAKE CARE OF OURSELVES and our own interests BY VOTING FOR:

For Mayor—EDWARD P. SHERBURNE.

Councilmen at Large—Charles P. Carroll, John H. Grover, William J. Kennedy, Albert J. Rowe.

Ward Councilmen—Ward 1, Andrew J. Barrett; Ward 2, Thomas H. Palmer; Ward 3, Timothy F. Donovan; Ward 4, Fred A. Gray; Ward 5, Frank Connell.

Board of Assessors—John G. Parsons.

Board of Public Works—Philip T. McWilliams.

—all capable men, who will give you an economical administration of city affairs.

Non-Partisan Board of Instruction—Helen N. B. Emery, Calvin Page, Fred N. Staten, Mary I. Wood.

Boston, Dec. 5.—Governor Coolidge today appointed James J. Storrow as the Fuel Administrator. During the war Mr. Storrow was the New England Fuel Administrator. He also heads the special commission recently appointed to consider the necessities of life who are to investigate the coal situation.

Miss Elizabeth Matthews

The novel idea of advertising for lost church members was originated by Miss Elizabeth Matthews of Glendale, Ohio, when the Episcopal Church League for the Isolated was started as a national movement. She was made secretary when the league was established in the southern Ohio Diocese. "Lost-5,000 Episcopalians" was the heading of an advertisement she had published in the Columbus newspaper, and as a result more than 5,000 lost church members returned to the fold.

"America's Greatest Magazine"

HARRY WINEBAUM, PORTSMOUTH, N. H.

(By Associated Press)

Mr. Roper said that probably 50,000, 000 gallons of liquors would remain in bonded warehouses when the constitutional amendment became effective January 16.

During the year ended June 30, approximately 39,000,000 gallons of distilled liquor were produced from materials other than fruits, this figure representing a decrease of nearly 75,000,000 gallons from the previous year's production.

The effect of wartime prohibition has presented a problem which is now causing revenue officials "serious embarrassment," Mr. Roper said. Holdings of heavy stocks of liquor in bond were forced, under provisions of the last revenue act, to pay an additional tax September 15. The law closing the saloons for the period of the war has left those interests with their product and without means of obtaining money to make the tax payments, he said.

"Under the law the direction of the bureau is limited to extending the

Expenditures of the bureaus during the last fiscal year, Mr. Roper said, were \$20,578,771, an increase of \$10,003,211 over the previous fiscal year. On this basis, he said, it has cost the government 0.543 per cent to introduce the revenue laws and collect the second greatest tax bill the nation ever has had.

The red rose of Lancaster lies peacefully beside the white rose of York in one of our show-cases. Forgotten are the days when they were emblazoned on the shields of opposing forces. Now one graces a bearded bag of radiant lace, while the other's clear white beauty is woven in a bag of softer colors.

Our head bugs are of unusual distinction. They are beautifully patterned and mounted in jeweled gold. Artistry is shown in every bit of the workmanship. They offer themselves as Christmas gifts sure to please. They come in a range of colors which permits considerable freedom in selection.

Every woman likes to have a good-looking bag or pocketbook. We have attractive brocaded and velvet bags with gold and silver mountings. Our leather purses and bags are unusually fascinating this Christmas. We are showing them in all the new shapes and shades. The range of prices is wide.

Our other departments, too, contain many things appropriate for Christmas gifts. Bring your list in with you. You will be surprised to find how many names you can scratch off in the course of an hour spent at our counters. We are at your service.

CONVENTION OF LOYAL WORKERS CLOSES

The second day of the semi-annual convention of the 4th district of Loyal Workers held at the Advent Christian church opened Thursday with the business session at 10.00 a. m.

The following minutes were taken. It was voted that we endeavor to get three hundred subscribers to the semi-annual paper "The World's Crisis."

It was voted that this meeting recommend to the annual meeting which will be held in Bangor, Me., that we have but one convention a year and to alternate in the places of holding the same, between the two states of Maine and New Hampshire which comprises the District.

It was also voted to have visiting committees from each Local whose duties it shall be to visit the nearest churches in endeavor to arouse interest in the work.

A resolution committee was appointed at this time and presented the same at the afternoon session.

At 2.15 p. m. the Round on Problems of Young Peoples' work brought about an interesting talk on "Fidelity."

At 3.15 Rev. L. J. Carter of Manchester, N. H., gave a very inspiring address on "Positive Positions in Puzzling Places."

He stated that the Master has planned our path and it is advisable to follow it. When we go to the Lord for help and are willing to be in the best ground we are sure to gain our positions. For he who thinks himself small the Lord helps higher.

At 3.55 p. m. Rev. P. B. Banks, pastor of this church, gave a very strong sermon on "The Opportunity and Responsibility of Loyal Workers." One strong point brought forth by him was that responsibility corresponds with the ability.

At 7.15 p. m. a lively praise service was enjoyed by all present with a solo by Mr. C. Fowler of Seabrook, N. H., and two selections by the Local Adventist Male Chorus.

At 7.50 p. m. Rev. A. H. Erickson addressed the congregation on the sub-

ject "The Glory of the Unrealized." He said "Always best to let God have the right of way. To let our be, we must have lofty ideals. If we do not attain to our ideals we may have the glory of the unrealized. Without character we are terribly poor. Our ideals must be more glorious than our mere physical accomplishments. Ahn high. The supreme thing in life is the making of a character. Character making centers in Christ and is determined by your relation to the Christ. Our conceptions of Christianity very largely make us what we are. Let us not lower our ideals but raise them, then aim to realize them, thus the glory of the unrealized. Man looketh at the outward appearance, but God looketh upon the heart."

The following resolution was adopted:

Whereas, we appreciate the necessity for a Forward Movement in all our denominational activities, therefore,

Be it resolved that we endorse the program of the General Conference of America, and

Be it resolved we urge upon the leaders of the District their hearty cooperation in carrying out this program.

ANOTHER USE FOR BUNNY

That Belgian hares have other uses besides being a source of food for the table, is shown by the fact that they are being used by an amateur English woman fencer. The animal of her understanding was when she appeared at a large pet stock show in England with a Janney, becoming that, a coat and a set of furs made from rabbit skins which she admitted publicly were nothing more than some of her pet rabbits.

In England 80,000 rabbit skins a year are made over into ermine. Arctic fox and black lynx furs to fool the world. Before the war such rabbits were produced by scores of millions in Europe and vast quantities of the skins imported to the United States to manufacture as real fur. American breeders are raising the same kind of rabbits that produce the best money for the fur shops and it is certain that the valuable rabbit fur can be produced in America as elsewhere. It is a business that can be conducted every month in the year and a hobby that will pay its way in one to be valued.

At 7.50 p. m. Rev. A. H. Erickson addressed the congregation on the sub-

FAVOR THE ESTABLISHMENT OF JEWISH HOME

(By Associated Press.) London, Dec. 5.—Two years ago the British government issued a proclamation of policy in favor of the establishment of a Jewish national home in Palestine, and a Zionist meeting has just been held to celebrate the anniversary. Baruch Rothchild, president, and read a letter from Lord Curzon, the foreign minister, giving assurance that there had been no change in the government's policy.

Lord Rothchild said that they were much nearer their goal than ever, before and he felt sure that they would yet see the establishment of their desired home, because it was the will of the overwhelming number of their Jewish brethren and was also the desire of the rest of the world.

The meeting adopted a resolution moved by Herbert Samuel, member of parliament, confirming "the undiminished will of the Jewish people to re-establish their national home in Palestine."

AMERICAN RESCUED FROM REBELS

(By Associated Press.) Mexico City, Dec. 5.—Federal forces recently rescued T. G. McKenzie, the American manager of an electric power plant in Cuernavaca, state of Chiapas, who had been captured and robbed by rebels and held with a view to ransom, according to reports reaching here.

Mr. McKenzie had set out on horseback from Parra and was taken captive by a small band of men who announced he would be held for ransom. A small boy hiding in the bushes witnessed the attack and ran to Parra where federal forces were advised and pursuit begun. The bandits were overtaken at nightfall, and after a sharp encounter in which three bandits were killed and one rescued, McKenzie was rescued.

BIG FUND TO HELP STUDENTS

Durham, N. H., Dec. 4.—A check for \$1000.00 to be used in providing a Loan Fund for the benefit of the students of New Hampshire College, has been received by President Hetzel from the trustees of the John H. Pearson Trust. The plan is to make this money available in comparatively small amounts to students who need the assistance in order to complete their college courses. It will be loaned on notes bearing interest at the rate of 6 percent, the interest to become operative when the students leave college. The fund will be a perpetual fund and the money received from the notes returned in each instance to the fund.

"I know of no philanthropic investment that will have a more beneficial and far reaching result than that represented by this student loan fund," said President Hetzel in announcing receipt of this gift yesterday. "More than 75 percent of the boys and girls attending New Hampshire College earn their own way in part or in whole. Frequently they are compelled to give up their education, and often required to leave college before the school term closes because of the need of \$25.00 to \$100.00. I sincerely hope other public-spirited citizens in the state of New Hampshire will sense the splendid purpose to which this fund is to be directed and help to make it adequate to meet the real needs. The fund should reach at least \$50,000 in order to adequately meet the situation."

The trustees of the John H. Pearson Estate, who are responsible for the appropriation are Clarence E. Carr, Alvin B. Cross and Judge James W. Remick.

POLICE BAFFLED BY \$30,000 SAFE THEFT

New York, Dec. 5.—A band of expert cracksmen are at large in this city police officials said last night after investigating the mysterious opening of the safe in the cashier's office of the Sheffield Farms milk company at 527 West Twenty-eighth street, from which strongbox the bank last night carried away \$30,000 in cash early Monday evening. Detectives working on the case said it was "one of the most expert jobs ever perpetrated in this city."

The cracksmen tackled the safe, which stands seven feet in height, while more than a dozen employees and two watchmen were in the building. They watched the flaming gas on one side of the combination knob, and with very little difficulty the intense flame bored through the ten inch steel door and melted the tumblers on the inside. The heat was so intense that it set fire to the wooden compartments inside the strong box. Once they had the doors open it was an easy matter to secure the \$30,000 mostly in small bills and coin. The money represented the receipts from thirty-six retail stores and the collections of 150 drivers, who have routes about the city. They carried the money away in a large canvas sack.

SILK HOSIERY NO AID TO FLU

New York, Dec. 4.—Silk stockings don't lead to influenza nor corrects in sudden death, declared Health Commissioner Copeland last night, firing a broadside into theories on women's dress held by many members of the medical profession.

This dictum was forthcoming after the commissioner had read opinions by French medical authorities, indicating hostility of cobweb textures as one cause of last winter's epidemic of "flu."

"There is nothing whatever in the silk stocking theory, for the reason that deaths among males far exceeded deaths among females in this city during the epidemic," declared Dr. Copeland.

"This discussion leads me to remark," he added, "that after more than 30 years' experience in the practice of medicine I have seen almost every vaunted theory regarding women's dress thrown into the ash heap of discarded medical ideas."

A generation ago discussion related to the harmfulness of corsets, which we were led to believe would shorten the lives of the wearers. Needless to say, the advocates of the corsetless woman gained comparatively few disciples and the death rate among women continued to decrease."

LEST WE FORGET THE NEWS

Some one has claimed an exclusive piece of news as having appeared in some paper about the postoffice building. The Herald printed this story some months before Congressman Burroughs returned to Washington. The editor of this paper also went to the Federal building with him and he made a personal investigation of the news. The Chamber of Commerce also took the matter up with the other members of the N. H. delegation in Congress and they will do their best to push the appropriation through.

Herald classified advertising is read carefully by home hunters, work hunters, opportunity seekers.

D'Annunzio Justifying His Meteoric Career in Eloquent Address to Troops at Fiume

This photograph shows Gabriele D'Annunzio, the Italian poet, as a man of action. He is seen here justifying his meteoric career on the east coast of the Adriatic in an eloquent address to his troops at Fiume.

SAY RUMOR HAS CAUSED SERIOUS HARM

Tokio, Dec. 2.—Viscount Ishii, formerly Japanese ambassador to Washington asserts in a magazine published here that the reports which have been circulated in some other countries of an alleged secret alliance between Japan and Germany are directly traceable to the interpellations that were made in Japanese Diet in the winter of 1916. These inquiries were in relation to the London compact between the allies to make no separate peace with Germany. It will be recalled that this was formed in the early stages of the war.

Viscount Ishii says that rumor has caused serious harm to Japan's wartime diplomacy and has injured Japan's interest in her post-bellum diplomacy.

He points out that in the interpellations prominent members of the Diet contend that Japan has shouldered a grave responsibility of no separate peace at a time when the issue of the great war forbade any forecasts. The Viscount, who was foreign minister when the London pact was signed, says the London cabinet answered these criticisms by declaring that the government had no intention whatsoever of concluding a separate peace with Germany. Adherence to the pact, ministers pointed out, was in accordance with Article 2 of the Anglo-Japanese alliance.

ENFORCEMENT OF REGULATION POSTPONED

Rio de Janeiro, Dec. 2.—Enforcement of the new Brazilian regulations for consular invoices, which were to have been put into effect October 1, has been postponed at the request of the semi-official Commercial Association of Rio de Janeiro, pending further consideration by the government. It is expected that modifications will be made to meet the desires of native and foreign commercial interests.

The local American Chamber of Commerce for Brazil, the American Association at Sao Paulo and other foreign commercial bodies, played a large part in cooperation with the Commercial Association in securing reconsideration of the proposed regulations. In fact, the Herbert Moses, secretary of the Commercial Association, in a recent address before a commercial gathering, stated that the memorandum presented by the Association to the government was identical with that received from the American chamber.

The memorandum to the government pointed out the impracticability of the regulations and the hardships they would impose on legitimate commerce. The chief objection to the new rules was that they called for absolutely detailed particulars of the goods, consigned, even to the number of different kinds of goods, for example, in a mixed consignment of goods. Another serious objection was that the new regulations required that the consular invoices with all these details, had to travel by the same ship as the goods. This, it was pointed out, was a difficult matter, as vessels often sailed at the week end when consular offices are closed. Limited consular staffs, it was said, were in many cases unable to verify such detailed statements in the short time allowed.

SAYS AMERICA WANTS BRITISH WEST INDIES

Montreal, Dec. 4.—Political annexation of the British West Indies as well as business control of the islands were laid down as the aim of the United States in an address before the Montreal Board of Trade today, by T. B. MacAulay, president of the Canadian West Indian Society. Mr. MacAulay, who spoke on the necessity of a commercial union between the United States and Canada, said he had strong reason to believe that American interests were at work in Jamaica to influence public opinion in favor of union with the United States.

Avoid Battery Troubles this Winter

Store Your Battery with Us

Let Us Save You From Storage Battery Trouble This Winter IF YOU LAY UP YOUR CAR

You should store your battery with us. We will keep it charged and warm and filled with distilled water. We will prevent it from freezing and from undue deterioration and loss of capacity. Our fee is only two or three cents a day, and you have the best possible assurance that your battery will be in a sound, healthy condition in the spring.

IF YOU DON'T LAY UP YOUR CAR remember, that batteries and cold weather do not agree. Keep your battery fully charged, or it will freeze and be ruined. Do not work it to death, and come in to see us often so that we may inspect it and warn you of possible trouble. This service is free, and it may save you money.

IF YOU ARE UNABLE TO BRING your battery to us, our service car will call for it at once without extra charge.

—a Liberal Education!

A LREADY—at the very moment you read this—a thousand particularly intelligent men and women are asking their newsmen for Hearst's for November. Minute by minute and hour by hour—all over the United States—this will continue until 500,000 of the most progressive magazine readers have secured their copies.

The others, disappointed, will have to wait until next month—or be satisfied with a lesser magazine.

YOU, perhaps, already have your November number. You have looked at the Table of Contents—Ibáñez, Maeterlinck, Conan Doyle, G. K. Chesterton. Or nearer home; Judge E. H. Gary, head of U. S. Steel, on "Something More Than the Pay Envelope." Or B. C. Forbes, K. C. B., Walt Mason, Dr. Frank Crane. Or you have, maybe, turned first to the Art—Play—Book—Science—of the Month. One thing is certain, you have noticed the real authority of Hearst's—its splendid serious side.

BUT—you say—you buy a magazine for its fiction. Good! Here in Hearst's for November are stories by Robert W. Chambers, Richard Washburn Child, Arthur Somers Roche, and Bruno Lessing, Arthur Stringer, Edwin Balmer and Gouverneur Morris. Besides these are three English writers, F. E. Bailey, Derek Van, J. Phillips Oppenheim—as well as Maurice Level, the best of the modern French writers. All these and several others in selected stories—stories that will make you think!

If you don't particularly care for a magazine that will make you think—if you are not interested in a magazine a bit beyond the ordinary—you won't want Hearst's this month or any other. BUT, if you want the words of the world's great writers; if you want the words of the world's real leaders; if you want the thoughts of the world's great thinkers; don't fail to make sure each month—starting today with November of getting your regular copy of

OF INTEREST TO WOMEN

STORES TAKING ON CHRISTMAS ASPECT

The shops already have taken on a holiday aspect. Indeed some of them have put on some of the holiday decorations that make shopping for Christmas so much festive than at any other season. And it is none too soon to begin your Christmas shopping. It is only a few short weeks and the holiday season will be upon us, and if we don't prepare for it soon it will find us empty handed and hurried out of all the cheer that the season ought to bring.

Go about now and pick up such gifts as you can find. It is for more satisfactory to shop early to get something here for your sister, for instance that you are sure she will like, and then tomorrow, to get something there for somebody else that you know will find favor. This method is much better than to wait and try to do all your shopping in one hurried, flitting day.

One thing shows in the shops that would surely bring a smile of pleasure to some old lady is a bouquet of sewing materials. There is a paper full and inside the full is the dearest little bouquet, made up of sunflowers like things as a tape measure, spoons of colored sewing silk, thimbles, and waxes and many of the other accessories needed in sewing. Somehow these things are so arranged that the result looks like a dainty little bunch of flowers of the old-fashioned daisy sort.

Some of the big balls of string are suitable for gifts for the housewife to whom you like to give something a little personal, yet something she can use every day in her housekeeping. For who that has ever kept house can forget the constantly rising necessity for a bit of string. These big balls of string are mounted between ends that are quite as attractive as many of the ball ends, some of them of metal, some of painted wood and plaster, just like the ball ends.

Black wicker baskets are a novelty. The baskets are enameled black and painted with a curious design in very bright, greens, yellows, reds, oranges and blues.

If you know some young girl who likes nothing better than a dainty bit of lingerie, you can achieve quick results by buying a camisole top already made. They come in dainty lace, all finished, even to having the ribbons run in, and need only mounting on a straight piece of sheer white muslin or flesh pink crepe de chine, with an elastic run in the lower edge. Some of them are made to slip over the head and some are made to have a front closing, in which case a bit of crepe de chine must be daintily finished.

Stockings too, are always a good gift for the young girl. And it does seem as if this year there were more fascinating stockings than ever before, which is just because the present array of the shops always seem more attractive than any preceding year.

Gold colored silk and silver colored stockings are most by young girls with gilt and aluminum slippers, respectively. Then there are lovely black stockings, which are indeed a real present with high prices as they exist today.

HELPFUL TABLE HINTS

Mentless Days

Here are a few suggestions for mentless days. Simple to make they may be familiar to a few, but we hope they will prove of value to some home wife who is wondering how to introduce variety into the fish menu.

Salmon Pudding

One small can salmon, one cupful milk, one cupful bread or cracker crumbs, two beaten eggs, salt. Pick bones and skin out of salmon, saving but the oil for the sauce. Into a saucepan heat one cupful of milk and table spoonful of butter, add to the crumbs and eggs, beat well. Steam one hour.

Sauce for Above

One tablespoonful of melted butter added to one tablespoonful of flower, blend well, then add one cupful of milk, salt and oil and cook until thick enough to serve on pudding.

Oyster Roast on Toast

Put one quart of oysters in a basin with their own liquor; let them boil three or four minutes; season with a little salt, pepper and a heaping spoonful of butter. Serve on delicate squares buttered toast with crust removed.

Baked Sweets

Wash, dry them thoroughly in a cloth, arranging them nicely in a flat baking dish; the pan should be buttered, also the fish. Season nicely with salt and pepper, cover with bread or cracker crumbs. Place a piece of butter over each. Bake for 15 or 20 minutes. Garnish with baked whole tomatoes and fried potatoes; also slices of lemon.

Oyster Pie

Cook four medium sized potatoes and two onions cut small, until done. Into a pudding dish add the above and one pint of whole oysters with enough broth to just cover all, and pepper and salt. Just before placing in hot oven cover the above with individual cream of tartar biscuits. Cook till a golden brown. Serve hot.

GREAT CHANGES IN HOMES

Great changes have come about in the homes during the past few years. It is not so long ago that many people felt it incumbent on their position to bring up their girls in idleness, to save them from even the care of their own rooms or their own clothes, or of anything except the care of a good time. Today mothers are faring a new situation.

The girls who have come home from overseas have come filled with a new enthusiasm for the work they have done and equally enthusiastic for the work they are to do. No longer will girls be contented to sit idly or spend their time in social activities alone while there is so much work to be

done in the world and such wonderful opportunities opening for women every where. The younger girl who hears her big sister tell of her service overseas or at home during the war feels all her young enthusiasm aroused by the stories and whether she does it openly or not she affirms in one way or another that she too will soon take her place with other girls who are accomplishing and in accomplishing are helping in the world's work. Not that she is to leave out of her plans, home making, by far the most important and inspiring work any woman can do. But alert and eager she is ready to receive instruction along every line of progress and real American as she is—she just wants to know. This eagerness to learn to better herself, this anxiety to get the most out of life through mental and physical activity is really an innate power that makes our American girls the finest girls in the world. This new American girl inspired and stimulated by work during the war is seeing things to do in her home as well as outside, and is learning that she cannot live to herself alone, nor spend her time idly in pleasure if she is to make a worthwhile woman. Mothers have keenly sensed this change and are therefore advising and helping their girls to devote the best in themselves by learning to rely upon their own efforts.

NEW STYLE TIPS

There is an artistic charm about the long tunic-blouses of bright colored silk, designed for stay-at-home wear. And it is a joy to slip into one of these comfortable affairs at the close of a busy day, for the home dinner hour. Some of the blouses are of velvet, a model of Bonaparte blue, for instance, which the blouse sleeves with deep cuffs, further just below the elbow and a slash of the material to tie the blouse in around the waist. Two rows of velvet colored buttons run down the back from neck to bust, with cord loops to fasten the buttons, and rows of buttons extend from the round neck, down each shoulder and part way down the sleeve. Another blouse of the sort is of red crepe de chine with covered half buttons.

Some of the lace blouse accessories are very engaging and quite disguise a simple frock. An example is of cream net top lace, the panel vest being attached to a deep bodice or full which extends from a round neck tie half way down over the arms. A bow of black moire ribbon ties the full at the neck and a mesh of the black ribbon, lying at one side goes around the waist. Below the mesh in front, drops a little apron of the lace carrying the line down and giving a lace accessory that extends from neck to hip.

The silhouette of the new evening gown is very dainty and feminine. A corsetlike bodice of soft fabric is swathed around the figure and supported by shoulder-straps and the figure above the waist is trim and well defined by the close bodice. Below the waist the skirt flares out in airy draperies of tulle or net or in puffs and flounces of soft silk. And dainty frocks are shorter than street costumes in the skirt. A stunning dance frock from Paris is of black tulle with

Good Economics Is Good Religion

—G. W. Wickersham

GEORGE W. WICKERSHAM
Former Attorney-General of the United States.

George W. Wickersham, former Attorney General of the United States, is actively enlisted in the National Campaign of the Episcopal Church which is being waged for a more practical, efficient religion. Discussing the awakening of the people, as one of the outcomes of the world war, and of their dawning consciousness of power and influence in shaping the world's affairs, Mr. Wickersham says:

"It is distinctly a church function to lead in this. The politicians can't do it. It isn't a situation in which partisan passion should play any part. It is a human problem, and the part which the church must play is that of getting down to a human basis in its relations with men and women and approaching them not only from their spiritual, but from their material side as well."

"We have had too much religion that goes over the heads of the people. We haven't been practical and we haven't been efficient. The religion of the new era must recognize and advocate that men and women are rational human beings, entitled to fair and adequate compensation for their toil, and the blessings of light, air, sunshine, flowers, ample hours in which to enjoy all these and stimulating amusements. That is at once good economics and good religion. It is a religion that makes for efficiency, and a religion that is human, and practical."

This increasing of the human, practical and efficient side of religion is one of the big problems to be tackled by the Episcopal Church in its National Campaign to increase at home and abroad its religious, educational, hospital and social service work. After an intensive educational campaign will come an every member canvass of communicants of the Episcopal Church on December 7 for funds to the amount of more than \$42,000,000 and for 1,500 additional church workers.

rhinestone shoulder-straps and strings of rhinestones are draped around the bodice, mingling with swastikas of black tulle.

Very smart coat for limousine or promenade wear have the huge dolman sleeve which is so graceful. This sleeve has an amulet which extends from the shoulder to the wrist and from the big armhole the sleeve tapers to a 12 or 15-inch width in the wrist.

ONLY 10 PER CENT INCREASE FOR NAVAL OFFICERS

Washington, Dec. 5.—Service pay legislation commanded the attention of congressional leaders today, with the Senate Committee on Military Affairs reporting a bill to increase the salaries of Army, Navy and Marine officers and men by 10 per cent for the officers and 20 per cent for the men, and with representatives of the House Military and Naval Committees wrangling with the Steering Committee over the amount of increase the House will authorize. Debate in the two branches will begin at an early date. Chairman Wadsworth of the Senate Committee intends to call up the bill in a few days while Chairman Butler of the House Naval Committee is preparing to bring the subject before the lower branch next Wednesday. Passage of the Senate bill will increase service pay by \$50,000,000 a year. A similar increase, if not more, will be recommended by the House, if a few of the House leaders, notably Majority Leader Frank W. Mondell, can be made to appreciate the justice of the request of the nation's defenders for more pay. The only merit not benefited by the bill are "back privates" and apprentice seamen, who are said to be liberally compensated now that their basic pay is on the wartime, rather than the pre-war basis. Army officers most active in seeking an increase have said that they are satisfied with the change proposed, naval officers, on the other hand, have said the increase is altogether too

small, pointing out that they have had no pay increase since 1908 and that the cost of living has increased 83.3 per cent since that time.

The Senate appreciates that the Army and Navy must have financial assistance if the efficiency of the service is to be restored. Military and naval leaders in Congress have been greatly distressed by the deterioration of the forces since the signing of the armistice. In the military establishment, one regular officer in every five was promoted since Nov. 11, 1918. The other men have been resigning. The naval services have dropped that hardy a ship in the Atlantic fleet can go to sea.

While the Senate is likely to pass the bill quickly the situation in the House is not so pleasing to service men. Mr. Mondell is determined in his opposition. As majority leader he can delay passage of the bill if he chooses or to delay his party in a disagreeable light on the floor. Mr. Mondell says he is opposed to the increase because the Government cannot stand it declaring that if one class of Government workers is given an increase all classes should be similarly favored thus increasing expenditures by \$800,000,000 to \$1,000,000,000 annually at the very time that the Government is facing a deficit of \$1,200,000,000.

CAMPAIGN IS WAGED AGAINST GERMAN FOOD

(By Associated Press)
Coblenz, Dec. 5.—American intelligence officers in the occupied areas recently started a campaign against German food speculators who were held responsible for high prices of food in Coblenz and vicinity. The first day of the "round-up" twenty profiteers were deported to unoccupied Germany, with instructions not to return.

An example of the nature of the dealings carried on by the speculators in an incident is cited by the Americans of a carload of wheat shipped into Coblenz. It cost the original purchaser 40,000 marks. The car remained untouched in the railroad yards while it was sold from one man to another, each time at increased price until the carload was finally disposed of for 50,000 marks, just double what the first purchaser paid.

VIGOROUS CAMPAIGN AGAINST RATS

Havana, Dec. 5.—The Cuban sanitation authorities have undertaken a vigorous campaign against the rat pest to prevent the bubonic plague from entering Cuba. Thousands of traps have been set and every precaution is being taken.

Ships coming from ports under suspicion will not be permitted to unload at the wharves, but must discharge their cargoes by means of lighters while anchored in the harbor, thereby lessening the possibility of a bad plague-carrying rats home.

DRASTIC CUT IN PASSENGER TRAIN SERVICE

(By Associated Press)
New York Dec. 5.—Drastic cuts in passenger service on all railroads in the eastern region were ordered today by Regional Director Hardin to save fuel and to expedite the transportation of coal to the Middle West. The reduction in the service which becomes effective at 12:01 a. m. next Wednesday will be as sharp as that made in the war days. Mr. Hardin has specified that no special trains be operated and that sections of regular trains be discontinued except in the case of such travel between cities of dense populations and then only when necessary.

REFUSE TO SEND SUPPLIES TO STRIKING COAL MINERS

Members of Illinois Manufacturers' Association Refusing to Send Food or Clothing to Their District
Chicago, Dec. 5.—John M. Glenn, secretary of the Illinois Manufacturers' Association, announced today that members of this organization had begun a boycott of clothing, food, fuel and other necessities against the striking coal miners of the State.

He said members of the association are conducting the boycott as individuals as retaliation against the strikers who are responsible for the fuel famine.

Secretary Glenn received a letter from one of his members today which read: "I have held up every order that comes from a mining community and I will continue to hold up such orders so long as the strike is on and they are preventing coal from coming to us."

The Herald publishes the local news from 24 to 48 hours in advance of its would-be competitor.

JENKINS RELEASED FROM PRISON

(By Associated Press)
Washington, Dec. 5.—W. O. Jenkins, the American consul agent at Puebla, was released from the prison on Wednesday night. The American Embassy at Mexico City reported his release in an official dispatch to the State Department this afternoon, and almost at the same time the news dispatch from Mexico, said that a check of \$500 had been deposited with the civil authorities. This difference in the two reports seems to raise some doubt as to whether Jenkins was released unconditionally as the result of the diplomatic request of the United States, or whether he had been released on bail and the Mexican authorities intended to keep him. The State Department took the view that he had been released as the result of the diplomatic request.

MEXICAN OIL WELLS EXHAUSTED

Tampico, Dec. 5.—It is announced that some of the oil wells in the Gulf region of Toluca, in which are located some of the biggest producing wells in the republic appear to be exhausted and are now flowing with water instead of petroleum. Production in this region has totaled more than 100,000,000 barrels annually. Exploitation, who recently surveyed the region, declared that drillings are necessary for oil south. The first big well in Toluca was discovered nine years ago, and development has been rapid since.

ENGAGEMENT ANNOUNCED

London, Dec. 4.—The engagement of Mrs. Pamela Congreve, daughter of Mr. and Mrs. Cyril Maude, to Major the Hon. William Fraser, has just been announced. Mrs. Congreve is the widow of Captain William L. Congreve the only son of Sir Walter and Lady Congreve, who was killed in the war after winning the Victoria Cross, the Distinguished Service Order and the Military Cross.

Mrs. Congreve was a war bride. In less than two months after her marriage she became a widow. King George and Queen Mary showed their sympathy for her in characteristic fashion. They received her privately at Buckingham palace where she received the orders that her gallant husband had won. Queen Mary acted as god-mother for the only girl that was born the following spring.

Major Fraser to whom she is now engaged was born in 1891 at her first wedding, and is the son of Lord and Lady Bateman.

Mr. and Mrs. Maude, Mrs. Congreve's parents, are well known in America where both are stage favorites and where they have a wide social acquaintance.

DISEASE IS INCREASING IN AMERICA

New York, Dec. 5.—Statistics showing that less than 20 percent of the American people are really healthy and that approximately 45 percent are more or less suffering from some form of serious malady, were presented by Dr. Watson S. Franklin, president of the American Public Health Association, at the 13th annual convention of Association of Life Insurance Presidents.

Dr. Franklin placed annual deaths at 1,500,000; bedridden cases 3,000,000 persons, who vitally ranged between 30 and 70 per cent, 25,000,000; those afflicted with minor defects, 37,500,000 and the actually healthy 15,000,000.

In the "zone of impairment," the physician pointed out, would be found nearly 1,000,000 cases of tuberculosis, not yet bedridden, but going about, most of them, "sowing the seed of death in new soil." Also, "many of the 25,000,000 cases of venereal diseases that develop annually," and from 2,000,000 to 3,000,000 cases of hookworm and malaria. In regard to insanity no statistics were given.

"You know that it is a fact," Dr. Franklin said, "that we have more persons in insane asylums in the United States than we have in colleges and universities."

He advocated a large-scale scheme of federal, state and local co-operation in health work as a remedy for this condition. An initial federal appropriation of a billion dollars, rising in five years to five billions, would be well justified, by the prospective rewards, he said.

WAR DEBT OF TURKISH EMPIRE HAS INCREASED

(By Associated Press)
Constantinople, Dec. 5.—The war debt of the Ottoman Empire is said by experts to have increased far more than that of any other nation. Her bonded indebtedness was increased by only one new loan of about \$9,000,000 and adding to this other increases in obligations such as home military requisitions and advances from Austria and Germany, her war expenses ran to only \$600,000,000. Consequently allowing for various offsets her post-war indebtedness amounts to about \$1,000,000,000.

This would make it appear that Turkey "ran the war on a shoe-string," financially as compared to Great Britain with her \$10,000,000,000 war debt, or France with \$20,000,000,000 and the United States with \$25,000,000,000 and Italy with possibly \$15,000,000,000. It will be recalled that on paper the Ottoman Empire mobilized nearly 4,000,000 men yet she escaped with something like the war expenses of a country like little Rumania or Bulgaria.

Send your holiday mail with the Red Cross seal. Let the double-headed Red Cross lozenge your package and add in the light against tuberculosis. All the money, hatched from the sale of Red Cross Christmas seals is devoted entirely in fighting the white plague.

HIGH PRICED DENTISTS WILL TELL YOU NOT TO COME TO ME WHY?

CLEMENCEAU GREETED BY THREE GERMANS

(By Associated Press)
Kehl, Germany, Dec. 4.—When Premier Clemenceau visited Kehl the other day he walked rapidly to the end of the great bridge which crosses the Rhine to Strasbourg, winked gaily at the galleon that replaces the Prussian eagle on the top of the bridge and then turned to face a battery of photographers and moving picture men.

"Go ahead, snap away, but don't forget that you must include that old bird up there in the picture," he said to the camera men.

Leaning over the railing he noticed a big pile of coal on the pier below and pointed it out to M. Clavelle, the minister of railways, saying to him: "Don't let me hear another complaint from the Parisians about the lack of coal."

M. Clavelle's reply could not be heard but evidently it was not satisfactory, for addressing the newspaper men, the Premier shouted: "Hiss, send a telegram to your newspapers something like this: 'Plenty of coal in Kehl but Clavelle will not transport it.'"

Returning to the waiting automobiles lined through the muddy main street lined with low houses from behind the captured windows of which faces peered curiously, Clemenceau caught sight of three French-coated men; who were standing in a group in the rain. "Who are these people?" asked the Premier. He was informed that they were the German mayor of the city and his two sons. They advanced toward him and the Premier stopped. The German mayor, after exchanging pleasantries for his family, French said: "I hope you have had an enjoyable stay and will have a pleasant journey." "Nothing that they were still uncovered," Clemenceau said, somewhat gruffly, "but on your hats." Then he hesitated for a minute, looked about him and replied with punctilious politeness: "I thank you for your good wishes."

Then he made as if to go out impulsively as if overcoming a strong resolution, he extended his hand which the three Germans took and bowing deeply they withdrew.

RESENT THE NEW FORM OF GOVERNMENT ABANDON THE HEATING OF TRAINS

(By Associated Press)
Bratislava, Slovakia, Dec. 4.—It is only on Czech-Slovakian maps that this ancient Hungarian city of Pressburg can be located by its new name. Ruled by Hungary for a thousand years it passed under the control of the new Czech-Slovakian republic by the decision of the Peace Conference and a large part of its inhabitants do not take kindly to the new order of things. Its people are dominantly German or Hungarian.

The street signs are in German and Hungarian characters, and now to them is being added Czech. The old postal and telephone employees have been replaced by Czechs and Czech high officers installed in the govern-

ment. Slovak regiments on duty here have been replaced by purely Czech soldiers. In a city as old and conservative and youthful as this, drifting through the centuries undisturbed, in its social customs these things have made feeling run rather high in certain social strata.

Persons, regardless of sex, who have not acquired legal residences are being expelled. One man told The Associated Press he had lived and done business here for forty years was expelled a few days ago. The list of those expelled for expulsion is said to contain names of dead persons.

Some Hungarians do not hesitate to express their resentment over the employment of Czechs in government positions here formerly occupied by the Hungarians, Czechs and many Slovaks of the educated classes who hold office under the government, say this feeling is due to Hungarian and German propaganda and has no real strength or extent. Also they admit the necessity of Czech officials as Slovakia has little or no educated class from which to draw executives of ability.

It is hard to upset rudely the traditions of ten centuries and folks with many persons, both in official and unofficial circles, would indicate that the antagonism displayed toward the Czechs is a natural condition of this period of transition and not deeply rooted. Probably it is stronger here in Pressburg than in the other parts of Slovakia where the change is not so apparent.

The school question plays a very prominent part in the situation here. The government has abolished the German and Hungarian languages in the schools and this means a general ousting of teachers and a retraining of housewives.

Many Slovaks and Germans now resent ostentatiously in Hungarian as do the parents of this immediate vicinity as a sign of their feelings. A politician speaking alluding to this development said that the Czechs had accomplished in six months what it had taken him to do for fifty years.

Well informed Slovaks, however, do not feel that the racial question will result in any serious developments. They say that Slovakia must hold to the republic and with new election and an elected, instead of a nominated National Assembly such as the present one, a more liberal Slovak representation in offices and the stabilization of the economic situation, conditions will improve. As a last argument they point out that Slovakia cannot exist as an independent state and there is no other country than the Czech-Slovak republic to which she can ally herself.

New York, Dec. 5.—New York subway and elevated riding millions began this morning to carry their own heat with them as a coal conservation measure. Acting under orders of the public service commissioner, the subway and elevated managements abandoned for the push period, their winter practice of heating trains. The explanation given was that when trains were crowded the passengers threw off enough bodily heat to keep each other warm. About 1,000 tons of coal a day will be saved.

BUSINESS OF TURKEY MUST BE DEVELOPED

(By Associated Press)
Constantinople, Dec. 4.—Turkey is rarely pictured as a country of business possibilities but rather as the traditional home of graft, political maneuvering and vested interests.

Yet, according to Americans of some vision who have long been here or others who have come since the close of the war, something may be done with the Turk and a lot with his country in the way of agricultural development, in expediting marine deposits on the Sea of Marmara, and on the shores of the Black Sea and in the Herakles basin, and copper at Argana, Maden and in the interior mountains between Diabekir and Kharpout.

There has been a vast quantity of misinformation circulated about the value of Turkish concessions and members of the American mission headed by General Harbord came to the conclusion that Turkey's greatest wealth lies in her unexploited, treeless soil, that it would be possible to make her wealthy if she had honest government, irrigation and her mountains and plains covered with quick-growing cottonwood. General Harbord, an expert agricultural observer, believes that the American cottonwood would change the point face of Turkey's mountains and valleys.

Turkey's greatest value, however, lies in her geographical position, and it is believed that anyone operating on a large scale from Smyrna and Constantinople, in particular, will have three avenues for trade extension, one to the Balkans, one along the Baghdad railway, which the Turks now control and are investing in heavily, pushing its line beyond Baghdad to the oil fields of Mesopotamia, and a third to the Indian Ocean; and a third avenue into the Black Sea countries including south Russia and the rich Caucasus.

C. H. Ravndal, American Commissioner and Consul-General in Constantinople, who has served in Turkey for some twenty years, is impressed with American opportunities in the Near East. He says that no matter how the Turkish question be solved by the Peace Conference, the result is certain to afford sufficient freedom and stability for the economic development which has been so long arrested and which now is on the eve of obeying its momentum. He urges American business men to "be up and doing" so that the new American merchant marine may prove not to have been built in vain. Mr. Ravndal also urges American shipping interests to consult American consuls and the American Chamber of Commerce for the Levant in picking agents for their steamship lines.

Mr. Ravndal said to The Associated Press:

"American trade figures in Constantinople are climbing up. In the three months ending September 30 1919, exports from this city to America amounted to \$2,950,000 as against \$1,300,000 for the June quarter. These are considerably in excess of pre-war figures but by far the greater increase is in exports to Constantinople from America. The balance of trade is now overwhelmingly in favor of America while before the war it was different.

"Under prevailing economic conditions it was better for both countries if the trade balance could be reversed and exchange equalized. For that purpose America must send men out here to explore natural resources which still remain in a primitive state of exploitation. Take raw silk for an example. Many Lebanon, Brusa, Asia Minor, Caucasus and Central Asia can produce enough raw silk to render the American silk manufacturing industry independent of Yokohama. But this can only be achieved by Americans establishing themselves in the Near East just as Americans have done in the matter of leather, root and cigarette tobacco.

"Fortunately we now have numerous American merchantmen plying in the Levant trade, and the establishment of American banks in the commercial centers of the Near East is only a question of weeks or months. The American commercial outlook in the Levant and the Balkans is indeed bright.

"Constantinople may be termed the hub of the Near East. The tributary territory of this ancient city which for centuries was the clearing house of the world's civilization, is constantly expanding especially towards the Caucasus and South Russia and the countries of the Danube. Under a stable and just government Constantinople will regain much of its past glory. It is the main door to Asia to which, it is claimed, the twentieth century belongs.

"What is principally wanted out here to insure American commercial ascendancy is American capital to be used in the development of natural resources and for purposes of reconstruction.

"In the Federal Reserve Act and the Webb-Pomeroy Act means have been provided for an adequate extension of American foreign trade, one authorizing American banks abroad and the other affording proper trade regulations. Except in the matter of our navigation laws, it is not legislation which now is wanted as much as vision and

Motor of Wrecked Airplane Salvaged in Mountains as a Huge Rolling Snowball

When Lieutenant W. C. Goldsborough and Lieutenant Wales were flying over Wealden their plane crashed high in the mountains. Although injured himself, Goldsborough struggled four miles through the snow-covered wilderness to get aid for his companion, who was pinned down by

the wreckage. This photograph shows the unique method employed to salvage the 1,500-pound motor. It would have been the work of days to cart or drag the heavy machinery down the mountains. Instead the motor was rolled about until it was heavily coated with snow and then the huge snowball was rolled down.

Jack Klenninger narrowly defeated Kennedy last year's captain. In the elections at Columbia and will lead the White and Blue in 1920. Klenninger is a former freshman captain, and played center on the varsity this year.

The New York University team will be headed by John Weinheimer, right halfback on the Violet team, and a consistent player thru the past season. He is eligible to play for two more years.

Archibald McIntosh captain of the Harvard team, and Elliott Hisey leads the Indiana eleven.

From Colleg Gridiron.
For the first since 1912, members of the Naval Academy team will receive the yellow star for having participated in a successful game against West Point. Gold cuff links in the shape of footballs have also been awarded by Colonel Robert M. Thompson of New York.

George Foster Sanford, Rutgers' football coach, has been presented with a check of silver by citizens of New Brunswick, N. J., as a testimonial of his services to the college.

An attendance of 200 is expected at Dartmouth's dinner, scheduled for Dec. 13. Many prominent men from all sections of the country will attend. Gold footballs will be presented to the letter men.

Owing to interference with the midterm examinations the college council of the Oregon Agricultural College has refused to permit the Coast team to play an intercollegiate game at Portland, Ore., with the Notre Dame eleven.

Considered as Successor
to Secretary of Treasury

"I own the house where Miss Leverich lived," testified Mrs. Slater, "and quite often there would have to be some repair work. All at once he grabbed her and kissed me." Miss Leverich testified: "and at that moment Mrs. Slater opened the door. She pulled my hand and threw me down the stairs."

"I own the house where Miss Leverich lived," testified Mrs. Slater, "and quite often there would have to be some repair work done in her room. I was suspicious because she always sent for my husband. I followed him up stairs and I heard her say 'Have the machine ready for three and we'll go out.' Then I heard kissing and opened the door as she was hugging my husband. We started to fight then."

"Even if Mrs. Slater thought that this woman was kissing her husband I would like to know by what right this defendant opened the door," asked the court.

The attorney for Mrs. Slater said that she had that authority because her husband was a party to an illegal act by allowing himself to be kissed by Miss Leverich.

"That's all wrong," retorted Judge Hayes. "It was no illegal act if Miss Leverich kissed Slater, although it may have been improper."

NEXT YEAR'S FOOTBALL CAPTAINS

When Yale and Princeton clash on the gridiron next season, the blue will be captained by the newly re-elected John Timothy Callahan, while this brother, and rival center, Henry A. Callahan will lead the Tigers. "Tim" is an Andover graduate, while "Mike" was prepared at Exeter. Both live at Lawrence.

At Williams, Ben Boynton of Waco, Texas, was re-elected to pilot the Purple eleven. He is eligible for another year of collegiate football, and is a varsity basketball and baseball star.

Two years ago, he was chosen as an All-American quarterback.

NO REDUCTION OF TAXES NEXT YEAR

Washington, Dec. 5.—No appreciable reduction in taxes for the next fiscal year is to be thought of, Secretary Glass declared in his annual report sent today to congress. Government receipts must be kept at their present figure, he said, in order to bring the government borrowing to an end.

Facing expenditures estimated at \$3,223,456,369 for the year ending June 30, 1920, and \$4,473,692,353 for the year ending June 30, 1921, the government must force rigid economy, Mr. Glass declared. He placed the deficit for the current year ending June 30, 1921, at approximately \$2,005,000,000.

On this basis, Mr. Glass urged congress to deny every appropriation for expenditure in new fields. He said the same policy should obtain until the government had its sinking fund well under way and repayment of the war debt satisfactorily begun.

Mr. Glass charged the excessive government expenditures were "the most vital factors" in increasing the cost of living and argued that it was urgently necessary to keep down public expenses for this reason as well as because of the drain on the taxpayers.

The present revenue laws need revising to meet new conditions, he said. He referred particularly to the excess profits tax laws which he described as being "objectionable even as a way time expedient." It would be still more objectionable in peace time," he added.

"It encourages wasteful expenditures, puts a premium on overcapitalization and a penalty on brains," the secretary continued. "It discourages new ventures and new enterprises and establishes old ventures in their monopolies. In many instances it acts as a consumption tax, is added to the cost of production upon which profits are figured, determining prices. It has been and will, so long as it remains on the statute books, continue to be a material factor in the increased cost of living."

In this connection Mr. Glass also urged redrafting of the revenue laws to prevent the evasion of federal taxes through the investment of wealth in the obligations of states and municipalities. He said laws should be enacted which would compel the reporting of such incomes, although they are wholly tax exempt, and that the sum with other income of an individual should be computed as the basis for assessing federal taxes on the amount derived from taxable sources.

Relations between conditions in Europe and those in the United States were discussed also by Mr. Glass. He said that undoubtedly, there was a very great need in Europe for financial assistance, but that the situation had been much exaggerated.

"We must all feel deep sympathy for Europe today," he said, "but we must not allow our sympathy to warp our judgment and, by exaggerating European financial needs, make them more difficult to fill. This problem of financing Europe belongs largely to the future."

(Continued from page seven)
The exporter because industries cannot be reopened without new stocks. Government financial assistance in the past and talk of future government or banking aid to finance exports have apparently led per industrial concerns to the erroneous expectation that their war profits based largely on exports, will continue indefinitely without any risk on their part. To them will fall the profits of exports and upon them will fall the consequences of failure to make the exports.

The treasury will continue its policy in effect since the armistice, to restore private initiative and remove governmental control and interference with respect to the nation's foreign trade Mr. Glass said. Only through this means, he argued, could a "healthy economic life be gained." He added that removal of any influence by the government should provide the incentive for American commerce to go in to the world markets and establish itself. Ratification of the peace treaty will measurably stimulate export trade Mr. Glass declared, because operation of the pact would eliminate numerous political risks and provide a surer investment basis.

Closely related to any activities of the government in foreign trade is the subject of incorporated government agencies, withdrawal of which Mr. Glass strongly urged. He said that "manifest weaknesses" were proof sufficient that such arrangements were not happy ones for the government nor for the persons charged with administration of the corporations. While not saying that any of the agencies, created during the emergencies of war, had been guilty of wastefulness, Mr. Glass pointed out that there was no objective such as business profits to hold expenditures down. On the other hand, officers managing the agencies operate on a capital for which there is no accountability or check and always have access to more funds if a real need exists. Cases where government funds are employed semi-independently, Mr. Glass declared, "largely justified government red tape in accounting."

KEEP LOOKING YOUNG It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—darkening under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

All Leather Is Still Advancing

Particularly the Better Grades

We believed it would go up and we ordered large stocks of men's shoes last spring, and will sell at fair profit over cost—not at prices based on what these shoes would cost us today.

We are selling the popular mahogany shade at \$7.00 to \$12.00.

We have the best in the city at \$10.00 and \$11.00.

We also have the

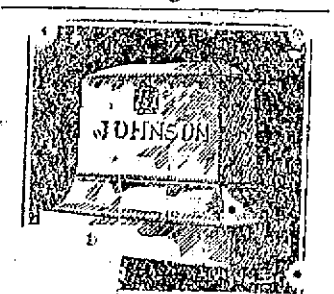

"BROGUE" STYLE

in mahogany, which is so much worn now by the young men.

AT \$12.00

This is positively made of the best leather produced. It has all the style there is, and there is no shoe on the market superior to it at any price. Just let us show you this one.

FULIS BROTHERS
157 Congress St.

you can save money by purchasing direct of the manufacturer. We manufacture our monuments at our own plant, which is equipped with all the latest labor saving machinery and operated by electric power—the only plant so equipped in this section. Call and see the large stock of finished monuments which we carry.

We Sold Them This.

A gentleman, accompanied by his wife, came into Margeson Brothers' store a few days ago and, addressing one of the salespeople whom he knew quite intimately, said: "We want an ivory bed room suite. Show us the cheapest thing you have in the house." Of course the request was complied with—but the low-priced suite wasn't wanted at all—they were just trying us out. When the purchase was completed, the finest ivory bed room suite on our floors had been selected, and was delivered the next day.

It is the policy of this store, as you doubtless know, to carry a line of furniture ranging in prices from the cheapest that is good to the best that is made. In arranging this furniture, which consists of complete suites and odd pieces for every room in the house, we exercise care and judgment as to its proper display on our sales floors; but in no case will it show up here for more than a fraction of its worth compared with appearance when placed in the home.
